+ See chapter 19 for defined terms.

At the end of December 2013, the Company held \$8.8 million in cash and cash equivalents (2012: \$16.9 million). Accrued income includes expected recoupment of funds from the misappropriation of corporate monies disclosed to the market in 2013, and an estimate of monies expected to be received from the R&D tax incentive scheme. These combined amounts total \$2.5m and ought to be received by the Company before end of second quarter of 2014. A further amount of \$1.3m is scheduled to be received in early March. It is contingent on the settlement of a property sold by Esra Ogru and her husband.

Funds expended during the year were primarily used to advance the Opioid clinical programs and to initiate a Phase 2 clinical study for the treatment of acne with retinoic acid.

The Company booked a non-recurring amount of \$0.7m for legal costs associated with the recovery of funds misappropriated by our former CEO and other parties.

Revenues for the year were \$2.2 million, a decrease of 15% from 2012 mainly due to lower interest income. The underlying sales revenue of \$1.4 million was 7% higher, but lower than expectations due to several factors including the impact that the dismissal of the former CEO, Dr Ogru, had on sales of the branded BioElixia® products, especially through home shopping TVSN where she was the face of our products.

Research expenses paid to third parties were \$3.8m and were \$1.9m higher than 2012, reflecting the greater number of clinical trials undertaken in 2013.

The net loss after tax for the year was \$12.7 million compared to a net loss of \$10.5 million for 2012. For further details refer to attached Financial Statements and notes.

### **Research & Development**

Phosphagenics' research and development programs in 2013 focused on the clinical development of the Company's opioid patches as part of its pain franchise. Phosphagenics successfully completed Phase 1 single dose studies for both the TPM/oxycodone and TPM/oxymorphone patches, and a Phase 1 multiple dose study for the optimized TPM/oxymorphone patch. After conducting extensive quantitative and qualitative market studies, the Company determined that its pain portfolio would comprise both opioids. Additionally, management decided that the TPM/oxycodone patch would be developed for localized pain indications while the TPM/oxymorphone patch would be developed for chronic pain indications suitable for treatment by systemically delivered extended release opioids. This strategy not only increases the overall size of the target markets, but it also ensures that the Company's patches do not compete with each other. Comprehensive strategic plans, target product profiles and other studies necessary for the design of commercially appropriate Phase 2 studies were completed during the reporting period.

Pursuing its new strategic direction, the Company completed a multiple dose Phase 1 clinical study with the TPM/oxymorphone patch in the second half of the year. This clinical trial produced exceptional results. In a world first, Phosphagenics delivered therapeutic doses of oxymorphone transdermally. Each of the 12 subjects in the repeat dose study attained oxymorphone plasma levels that were within the therapeutic dose range for the drug, as defined by the mean CMAX plasma concentrations on the FDA approved label for Opana® ER (the currently branded oral form of extended release oxymorphone). Furthermore, all subjects stayed well above therapeutic levels for the duration of the clinical study. These results exceeded expectations. The effectiveness of the patch provides the Company flexibility in determining commercial patch sizes of varying strength, in so doing providing plasma levels that are expected to cater for the majority of the targeted moderate to severe chronic pain population.

The Company does not intend to conduct a Phase 1 multiple dose study for its TPM/oxycodone patch for localised (peripheral or neuropathic) pain; the patch is Phase 2 ready. While there is good anecdotal evidence to suggest that opioids will reduce localised pain when administered topically, the Company will need to prove this in a Phase 2 proof of concept study. It is likely that the Company will conduct two Phase 2 proof of concept studies for different pain indications in 2014.

---

+ See chapter 19 for defined terms.

For both the TPM/oxymorphone patch and TPM/oxycodone patch, the Company is readying itself for Phase 2 studies that will be conducted during 2014 in Australia and/or in the United States.

The Company's other main pharmaceutical focus is its development of dermatology assets incorporating TPM<sup>®</sup>. During 2013, Phosphagenics commenced a Phase 2 clinical study for its TPM/tretinoin gel product targeting an acne indication. The study was designed to compare the TPM/tretinoin product to Retin A the market-leading product. The study is not a pivotal efficacy trial powered for statistical significance but will instead enable the Company to design its Phase 3 study. The Phase 2 study was scheduled for completion at the end of 2013 and although the majority of patients have completed treatment, recruiting the appropriate patients has proven difficult.

Although recruitment has almost been completed, as the Phase 2 clinical trial is a blinded study, the Company will not know the results until database lock, which occurs after all patients have completed treatment. Accordingly, this recruitment delay will mean that the 3-month trial will not be completed until the end of the second quarter of 2014.

### **Commercial Developments**

The most significant new commercial developments for the Company during the reporting period were:

- The sub-licensing to and launch by Novartis of a TPM/diclofenac gel in India (manufactured for and sub-licensed to Novartis by Themis Medicare Limited);
- The launch by General Nutrition Corporation (GNC) of a skin firming and toning cream in over 5,000 retail stores, principally in the United States;
- The launch by Phosphagenics of a line extension, involving 4 new products, to its BioElixia<sup>®</sup> BodyShaper skincare line, principally in Australia and the United States.

In addition to these product launches, the Company continued to generate revenue through:

- its distribution arrangement with Ashland Inc of the Vital ET ingredient to the cosmetics industry;
- its distribution arrangements with Mastitis Management Australian and Equine Ergogenics Australia of nutritional supplements into dairy industry, and nutritional and feed supplements into the horse industry, respectively; and the direct marketing of its BioElixia<sup>®</sup> range of cosmetics products in Australia, the United States and South-East Asia.

### **Looking Forward**

In October 2013, Phosphagenics reported the most commercially significant clinical results in its history. The Company's multiple dose Phase 1 clinical study on the TPM/oxymorphone patch clearly demonstrated delivery of therapeutic levels of oxymorphone into plasma within the first 72 hour patch rotation. These levels were maintained through each patch rotation. Because oxymorphone is a well characterised drug, these results are sufficient to demonstrate the efficacy of the patch. The distinguishing feature between delivery systems and new drugs is that for new drugs, Phase 2 studies are normally required to establish efficacy. With old drugs such as oxymorphone, delivery of these drugs at therapeutic levels, establishes their efficacy. This is normally achieved in Phase 1 studies.

The path towards registration of the Company's opioids will include Phase 2 and Phase 3 studies as well as further Phase 1 studies to characterise and define the patch from a regulatory as well as a commercial perspective. These Phase 1 studies will commence while Phosphagenics prepares for Phase 2 studies. Currently the Company does not have plans to conduct Phase 3 studies, believing instead that positive Phase 2 results will enable it to out-license the opioid products.

In this regard, Phosphagenics has commenced a commercial outreach program with large and medium sized pharmaceutical companies and pain specialty companies. Several meetings have been held and the Company anticipates that discussions will continue with these and other interested parties throughout 2014.

Whilst the Company will continue with its dermatological, animal health and other pain programs, the

---

+ See chapter 19 for defined terms.

two opioid projects remain the major focus.

Phosphagenics will announce its new Board shortly. Management views 2014 as the year of rebirth for Phosphagenics. While 2013 was a difficult year and is now well behind the Company, it did provide several positives, with the TPM/oxymorphone multiple dose results being the clear stand out.

3. A statement of financial performance together with notes to the statement, prepared in compliance with AASB 1018 or the equivalent foreign accounting standard:

See attached Consolidated Statement of Comprehensive Income

4. A statement of financial position together with notes to the statement. The statement may be condensed but must report as line items each significant class of asset, liability, and equity element with appropriate sub-totals:

See attached Consolidated Statement of Financial Position

5. A statement of cash flows together with notes to the statement. The statement of cash flows may be condensed but must report as line items each significant form of cash flow and comply with the disclosure requirements of AASB 1026 Statement of Cash Flows, or for foreign entities, the equivalent foreign accounting standard:

See attached Consolidated Statement of Cash Flow

6. Details of individual and total dividends or distributions and dividend or distribution payments. The details must include the date on which each dividend or distribution is payable, and (if known) the amount per security of foreign sourced dividend or distribution:

N/A

7. Details of any dividend or distribution reinvestment plans in operation and the last date for the receipt of an election notice for participation in any dividend or distribution reinvestment plan:

N/A

8. A statement of retained earnings showing movements:

	<b>Current period \$A'000</b>	<b>Previous corresponding period \$A'000</b>
Retained profits (accumulated losses) at the beginning of the financial period	(186,365)	(175,582)
Net profit (loss) attributable to members	(12,673)	(10,513)
Net transfers from (to) reserves	-	-
Net effect of changes in accounting policies	-	-
Dividends and other equity distributions paid or payable	-	-
<b>Retained profits (accumulated losses) at end of financial period</b>	<b>(199,038)</b>	<b>(186,365)</b>

9. Net tangible assets per security with the comparative figure for the previous corresponding period.

	<b>Current period</b>	<b>Previous corresponding Period</b>
Net tangible assets per security	1.5 cents	2.3 cents

---

+ See chapter 19 for defined terms.

10. Details of entities over which control has been gained or lost during the period:

10.1 Name of the entity. 

N/A
-----

10.2 The date of the gain or loss of control. 

N/A
-----

	Current period	Previous corresponding period
10.3 Where material to an understanding of the report – the contribution of such entities to the reporting entity’s profit from ordinary activities during the period and the profit or loss of such entities during the whole of the previous corresponding period.	N/A	N/A

11. Details of associates and joint venture entities including the name of the associate or joint venture entity and details of the reporting entity’s percentage holding in each of these entities and – where material to an understanding of the report - aggregate share of profits (losses) of these entities, details of contributions to net profit for each of these entities, and with comparative figures for each of these disclosures for the previous corresponding period.

Name of entity	% Holding	Aggregate Share of profit (losses)		Contribution to net profit	
		Current period \$'000	Previous corresponding Period \$'000	Current period \$'000	Previous corresponding Period \$'000
Vital Health Sciences Pty Ltd	100	N/A	N/A	(3,642)	(4,801)
Phosphagenics Inc	100	N/A	N/A	(50)	(46)

12. Any other significant information needed by an investor to make an informed assessment of the entity’s financial performance and financial position:

N/A
-----

+ See chapter 19 for defined terms.

13. For foreign entities, which set of accounting standards is used in compiling the report (e.g. International Accounting Standards).

International Financial Reporting Standards

14. A commentary on the results for the period. The commentary must be sufficient for the user to be able to compare the information presented with equivalent information for previous periods. The commentary must include any significant information needed by an investor to make an informed assessment of the entity's activities and results, which would include but not be limited to discussion of the following:

- 14.1 The earnings per security and the nature of any dilution aspects:

Basic earnings per share (0.12) dollars (2012: 0.10)

Diluted earnings per share (0.12) dollars (2012: 0.10)

- 14.2 Returns to shareholders including distributions and buy backs:

N/A

- 14.3 Significant features of operating performance:

N/A

- 14.4 The results of segments that are significant to an understanding of the business as a whole:

Refer to Preliminary financial statements

14.5 A discussion of trends in performance:

N/A

14.6 Any other factors which have affected the results in the period or which are likely to affect results in the future, including those where the effect could not be quantified:

N/A

15. A statement as to whether the report is based on accounts which have been audited or subject to review, are in the process of being audited or reviewed, or have not yet been audited or reviewed.

The accounts of the Company have been audited.

Note: If the <sup>+</sup>accounts have been audited or subject to review, the audit report should be provided with the report.

16. If the accounts have not yet been audited or subject to review and are likely to be subject to dispute or qualification, a description of the likely dispute or qualification:

N/A

17. For all entities, if the accounts are subject to audit dispute or qualification, a description of the dispute or qualification.

N/A

Note: The audit report or review must be provided as part of the report.

Signed by Company Secretary:

Name: Mourice Garbutt  
Date: 28 February 2013

# Directors' Report

Your Directors submit their report for the year ended 31 December 2013.

## Directors

---

The names and details of the Directors of Phosphagenics Limited (also variously described as Phosphagenics, the Company, the Group, or the Consolidated Entity) in office during the financial year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

## Information on Directors

---

### Currently in Office

---

**JONATHAN LANCELOT ADDISON** BEC (TAS),  
ASIC, CFTP (SNR) **(AGED 60 YEARS)**  
**INDEPENDENT DIRECTOR SINCE NOVEMBER**  
**2002**  
**CHAIRMAN SINCE MAY 2010**  
**LAST RE-ELECTED MAY 2013**

Mr Addison has over 30 years in the investment management industry, including wide experience in superannuation, and insurance. Currently, in addition to holding a number of Board positions, he is an Investment Advisor to the Meat Industry Employee Superannuation Fund (MIESF). Previously he was the Fund Manager/CEO of the Fund.

MIESF, a self-administered industry superannuation fund established in 1981 which operates nationally, currently holds 21,800,000 shares in Phosphagenics Limited. Prior to his appointment to MIESF, Mr Addison was a Director and Asset Consultant within the corporate finance section of PricewaterhouseCoopers and in this role was responsible for establishing an investment consulting practice with clients ranging from superannuation funds to insurance funds and fund managers. Prior to that, Mr Addison held a number of investment management and consulting positions in both the public and private sectors.

In recent years Mr Addison has spoken at a number of economics and investment related conferences both in Australia and overseas.

Mr Addison also holds Non-Executive Directorships with, African Enterprise International (in October 2010 he was elected International Chairman), African Enterprise (Australia) Limited, African Enterprises New Zealand Limited, Hawksbridge Limited, Global Masters Fund Limited, TPCG Limited and Athelney Trust plc. Mr Addison stepped down as the Chairman of the Company's Audit, Compliance and Corporate Governance Committee in May 2010 as he is now Chairman of the Board.

**HARRY ROSEN** BA, LLB **(AGED 66 YEARS)**  
**EXECUTIVE DIRECTOR APPOINTED TO THE**  
**BOARD IN JUNE 1999**  
**APPOINTED MANAGING DIRECTOR -**  
**PRESIDENT DECEMBER 2005**  
**LAST RE-ELECTED MAY 2004\***

Mr Rosen, as founding director of Phosphagenics Limited has, since 1999, been instrumental in the corporate and commercial development of the Company's portfolio of patents based upon the patented TPM<sup>®</sup> drug delivery system.

Previously, Mr Rosen was one of the founders of Betatene Limited and Denehurst Limited, two formerly ASX listed companies which successfully commercialised significant research and development programs. Betatene is the world's largest producer of natural beta carotene. After the purchase of Betatene Limited by Henkel Corporation, where Mr Rosen served as Vice President, Corporate Development. As a Vice President at Henkel Corporation, he worked for a number of years in the United States in the nutrition and health care industries.

Mr Rosen has consulted to many additional companies, both public and private, assisting them principally with the commercialisation of new technologies. He has had significant experience in the areas of seed capital raising, stock exchange listings, corporate taxation and corporate law. Mr Rosen graduated from the Australian National University (BA-Psychology) and the University of Melbourne (LLB).

\* As Managing Director Mr Rosen is not required to retire by rotation.

## Directors' Report continued

**DON CLARKE LLB (HONS) (AGED 59 YEARS)**  
**INDEPENDENT DIRECTOR APPOINTED**  
**AUGUST 2010**  
**ELECTED MAY 2011**  
**LAST RE-ELECTED MAY 2013**

Mr Don Clarke has been a partner of law firm Minter Ellison since 1988. He serves in the Melbourne Private Equity & Capital Markets group, predominantly advising ASX listed companies across a range of industries with emphasis on technology and manufacturing.

Mr Clarke is also the Deputy Chairman of Webjet Limited. He previously served on the Board of Calzada Limited (formerly Metabolic Pharmaceuticals Limited) and Circadian Technologies Limited.

Mr Clarke was appointed as the Chairman of the Company's Audit, Compliance and Corporate Governance Committee in August 2010.

**STUART JAMES BA (HONS) (AGED 64 YEARS)**  
**INDEPENDENT DIRECTOR APPOINTED**  
**AUGUST 2010**  
**ELECTED MAY 2011**

Mr Stuart James has held a number of high profile executive positions during his career and has extensive experience in the oil, health, pharmaceutical and financial services sectors. Following a 25 year career with Shell, both in Australia and internationally, Mr James' past roles have included Managing Director of Australian Financial Services for Colonial Group and Managing Director of Colonial State Bank (formerly the State Bank of NSW).

Mr James' most recent executive role was as CEO of the Mayne Group, including Mayne Health and Mayne Pharma. He is a Member of the Supervisory Board of Wolters Kluwer NV. Mr James is Chairman of Pulse Health Ltd and Prime Financial Group Ltd and a Non-Executive Director of Greencross Ltd. He previously served as Chairman of Progen Pharmaceuticals Ltd.

Mr James is a member of the Company's Audit, Compliance and Corporate Governance Committee.

**DR SANDRA WEBB BPHARM, PHD, DIP LAW**  
**(AGED 67 YEARS)**  
**INDEPENDENT DIRECTOR APPOINTED**  
**AUGUST 2010**  
**ELECTED MAY 2011**

Dr Sandra Webb re-joined Phosphagenics, having served with the company as Pharmaceutical Development Advisor from February 2005 to June 2006. Dr Webb is a Director of Ground Zero Pharmaceuticals Pty Limited and Chair of the Advisory Board of Knightsbridge Lawyers & Patent Attorneys. She previously served on the Boards of AusBiotech Limited, Amrad Corporation Limited and Quintiles Pty Limited.

An experienced biopharmaceutical professional, Dr Webb has a strong track record of achievements in the commercial world of drug development. As founding Managing Director of Quintiles Australia, she successfully grew the company as the leading commercial research organisation in Australia. Under her stewardship Quintiles Australia was the most profitable subsidiary of the worldwide Quintiles Transnational Inc.

Dr Webb is a member of the Company's Audit, Compliance and Corporate Governance Committee.

### **Former Directors**

---

**DR ESRA OGRU BSC (HONS) PHD (AGED 38 YEARS)**  
**EXECUTIVE DIRECTOR SINCE OCTOBER 2005**  
**CHIEF EXECUTIVE OFFICER SINCE MAY 2010**  
**LAST RE-ELECTED MAY 2012**  
**RESIGNED 18 JULY 2013**

Dr Ogru was appointed CEO of Phosphagenics in April 2010 and resigned in July 2013.

## Directors' Report continued

### Directorships of other listed companies

Directorships of other listed companies held by Directors in the three years immediately before the end of the financial year are as follows:

NAME	COMPANY	PERIOD OF DIRECTORSHIP
Jonathan Addison	Global Masters Fund Limited	Since 19 April 2005
Don Clarke	Circadian Technologies Limited Webjet Limited	1 September 2005 to 29 November 2013 Since 10 January 2008
Stuart James	Wolters Kluwer NV Pulse Health Limited Prime Financial Group Limited Progen Limited Greencross Limited	Since 26 April 2006 Since 7 November 2007 Since 16 May 2006 1 July 2009 to 28 November 2013 Since 30 October 2009

### Company Secretary

Mr M Garbutt is the Company Secretary of the Company and its subsidiaries.

Mr Garbutt is a Fellow of Governance Institute of Australia (formerly the Chartered Secretaries Australia) (FGIA); Chartered Institute of Secretaries (FCIS) and until recently a Justice of the Peace in Victoria. He has over 30 years commercial experience and currently, through K R Corporate Compliance Pty Ltd ("KRCC"), conducts a corporate compliance and company secretarial company providing such support services to a number of public and listed companies in Australia including the Phosphagenics Limited group.

### Principal Activities

The principle activities of the Company are the production, sale and licensing of products incorporating its patented platform technology, TPM<sup>®</sup>, for the pharmaceutical, cosmetics and animal health industries.

### Review of Operations

At the end of December 2013, the Company held \$8.8 million in cash and cash equivalents (2012: \$16.9 million). Accrued income includes expected recoupment of funds from the misappropriation of corporate monies disclosed to the market in 2013, and an estimate of monies expected to be received from the R&D tax incentive scheme. These combined amounts total \$2.5m and ought to be received by the Company before end of second quarter of 2014. A further amount of \$1.3m is scheduled to be received in early March. It is contingent on the settlement of a property sold by Esra Ogru and her husband.

Funds expended during the year were primarily used to advance the Opioid clinical programs and to initiate a Phase 2 clinical study for the treatment of acne with retinoic acid.

The Company booked a non-recurring amount of \$0.7m for legal costs associated with the recovery

of funds misappropriated by our former CEO and other parties.

Revenues for the year were \$2.2 million, a decrease of 15% from 2012 mainly due to lower interest income. The underlying sales revenue of \$1.4 million was 7% higher, but lower than expectations due to several factors including the impact that the dismissal of the former CEO, Dr Ogru, had on sales of the branded BioElixia<sup>®</sup> products, especially through home shopping TVSN where she was the face of our products.

Research expenses paid to third parties were \$3.8m and were \$1.9m higher than 2012, reflecting the greater number of clinical trials undertaken in 2013.

The net loss after tax for the year was \$12.7 million compared to a net loss of \$10.5 million for 2012.

For further details refer to attached Financial Statements and notes.

### Research & Development

Phosphagenics' research and development programs in 2013 focused on the clinical development of the Company's opioid patches as part of its pain franchise. Phosphagenics successfully completed Phase 1 single dose studies for both the TPM/oxycodone and TPM/oxymorphone patches, and a Phase 1 multiple dose study for the optimized TPM/oxymorphone patch. After conducting extensive quantitative and qualitative market studies, the Company determined that its pain portfolio would comprise both opioids. Additionally, management decided that the TPM/oxycodone patch would be developed for localized pain indications while the TPM/oxymorphone patch would be developed for chronic pain indications suitable for treatment by systemically delivered extended release opioids. This strategy not only increases the overall size of the target markets, but it also ensures that the Company's patches do not compete with each other. Comprehensive strategic plans, target product profiles and other studies necessary for the

## Directors' Report continued

design of commercially appropriate Phase 2 studies were completed during the reporting period.

Pursuing its new strategic direction, the Company completed a multiple dose Phase 1 clinical study with the TPM/oxymorphone patch in the second half of the year. This clinical trial produced exceptional results. In a world first, Phosphagenics delivered therapeutic doses of oxymorphone transdermally. Each of the 12 subjects in the repeat dose study attained oxymorphone plasma levels that were within the therapeutic dose range for the drug, as defined by the mean CMAX plasma concentrations on the FDA approved label for Opana<sup>®</sup> ER (the currently branded oral form of extended release oxymorphone). Furthermore, all subjects stayed well above therapeutic levels for the duration of the clinical study. These results exceeded expectations. The effectiveness of the patch provides the Company flexibility in determining commercial patch sizes of varying strength, in so doing providing plasma levels that are expected to cater for the majority of the targeted moderate to severe chronic pain population.

The Company does not intend to conduct a Phase 1 multiple dose study for its TPM/oxycodone patch for localised (peripheral or neuropathic) pain; the patch is Phase 2 ready. While there is good anecdotal evidence to suggest that opioids will reduce localised pain when administered topically, the Company will need to prove this in a Phase 2 proof of concept study. It is likely that the Company will conduct two Phase 2 proof of concept studies for different pain indications in 2014.

For both the TPM/oxymorphone patch and TPM/oxycodone patch, the Company is readying itself for Phase 2 studies that will be conducted during 2014 in Australia and/or in the United States.

The Company's other main pharmaceutical focus is its development of dermatology assets incorporating TPM<sup>®</sup>. During 2013, Phosphagenics commenced a Phase 2 clinical study for its TPM/tretinoin gel product targeting an acne indication. The study was designed to compare the TPM/tretinoin product to Retin A the market-leading product. The study is not a pivotal efficacy trial powered for statistical significance but will instead enable the Company to design its Phase 3 study. The Phase 2 study was scheduled for completion at the end of 2013 and although the majority of patients have completed treatment, recruiting the appropriate patients has proven difficult.

Although recruitment has almost been completed, as the Phase 2 clinical trial is a blinded study, the Company will not know the results until database lock, which occurs after all patients have completed treatment. Accordingly, this recruitment delay will

mean that the 3-month trial will not be completed until the end of the second quarter of 2014.

### Commercial Developments

The most significant new commercial developments for the Company during the reporting period were:

- The sub-licensing to and launch by Novartis of a TPM/diclofenac gel in India (manufactured for and sub-licensed to Novartis by Themis Medicare Limited);
- The launch by General Nutrition Corporation (GNC) of a skin firming and toning cream in over 5,000 retail stores, principally in the United States;
- The launch by Phosphagenics of a line extension, involving 4 new products, to its BioElixia<sup>®</sup> BodyShaper skincare line, principally in Australia and the United States.

In April 2013 Phosphagenics' commercial partner and the manufacturer of the TPM/diclofenac gel, Themis MediCare, announced that it had reached agreement to supply the formulation to Novartis India. In January 2014 Novartis India launched the product, called "Voveran<sup>®</sup> TPM gel", in India. The product is indicated for:

- Post-traumatic inflammation of the tendons, ligaments, muscles, and joints, e.g. due to sprains, strains, and bruises;
- Localised forms of soft-tissue rheumatism, e.g. tendovaginitis, bursitis, shoulder-hand syndrome, and periarthropathy;
- Localised forms of rheumatism, e.g. osteoarthritis of the peripheral joints and vertebral column.

In May 2013 Phosphagenics' partner GNC launched its Total Lean Toning Cream product in all of its corporate owned stores in the United States. The product, which is marketed as a skin firming and toning cream, is manufactured by Phosphagenics and supplied to GNC in the United States. It is the first topical product marketed under a GNC label, and the TPM<sup>®</sup>-based formulation was selected for use in the product based on the strength of its performance in human efficacy studies. Total Lean is the leading brand, by revenue, in GNC's diet category.

In July 2013 the Company launched four new products as a line extension to its BioElixia<sup>®</sup> BodyShaper line of skincare products:

- BioElixia<sup>®</sup> BodyShaper Stretch Mark Diminishing Crème;
- BioElixia<sup>®</sup> BodyShaper Firming Toning Body Lotion;
- BioElixia<sup>®</sup> BodyShaper Radiance Body Cleanser; and
- BioElixia<sup>®</sup> BodyShaper Exfoliating Body Polish.

Like the previously launched Cellulite Contour Crème, the Stretch Mark Diminishing Crème performed exceptionally well in photogrammetric study demonstrating an objectively quantified

## Directors' Report continued

reduction in the appearance of stretch marks. A significant budget was committed to the Australian launch of this product in July 2013. The timing of the announcement of the misappropriations by the Company's former CEO impacted negatively on the product's launch.

In addition to these product launches, the Company continued to generate revenue through:

- its distribution arrangement with Ashland Inc of the Vital ETT<sup>™</sup> ingredient to the cosmetics industry;
- its distribution arrangements with Mastitis Management Australian and Equine Ergogenics Australia of nutritional supplements into dairy industry, and nutritional and feed supplements into the horse industry, respectively; and
- the direct marketing of its BioElixia<sup>®</sup> range of cosmetics products in Australia, the United States and South-East Asia.

### **Business Strategy and Future Developments**

In October 2013, Phosphagenics reported the most commercially significant clinical results in its history. The Company's multiple dose Phase 1 clinical study on the TPM/oxymorphone patch clearly demonstrated delivery of therapeutic levels of oxymorphone into plasma within the first 72 hour patch rotation. These levels were maintained through each patch rotation. Because oxymorphone is a well characterised drug, these results are sufficient to demonstrate the efficacy of the patch. The distinguishing feature between delivery systems and new drugs is that for new drugs, Phase 2 studies are normally required to establish efficacy. With old drugs such as oxymorphone, delivery of these drugs at therapeutic levels, establishes their efficacy. This is normally achieved in Phase 1 studies.

The path towards registration of the Company's opioids will include Phase 2 and Phase 3 studies as well as further Phase 1 studies to characterise and define the patch from a regulatory as well as a commercial perspective. These Phase 1 studies will commence shortly while Phosphagenics prepares for Phase 2 studies scheduled for 2014.

Currently the Company does not have plans to conduct Phase 3 studies, believing instead that positive Phase 2 results will enable it to out-license the opioid products.

For our pain franchise the Company's strategic direction is clear. It will conduct sufficient clinical studies, product and regulatory development to enable it to license its products on the most favourable terms taking into account risk factors as well as the cost and time to conduct clinical studies. For oxycodone and oxymorphone, the optimum time is likely to be at the conclusion of proof of concept studies. However, the Company will remain flexible in this regard. For diclofenac and lidocaine the optimal time to license these products may be prior

to completion of Phase 2 studies. Several large pharmaceutical companies have approached Phosphagenics with a request to develop other pain products. When time permits the Company will undertake such developments, as they will quickly lead to commercial arrangements.

In regard to oxymorphone and oxycodone, Phosphagenics has commenced a commercial outreach program with large and medium sized pharmaceutical companies as well as pain specialty companies. Several meetings have been held and the Company anticipates that discussions will continue with these and other interested parties throughout 2014. Discussions on commercialising the diclofenac product are progressing with several companies. Interest has been heightened as a consequent of the recent launch of the TPM/diclofenac product in India. In addition to the gel, the company will also develop a patch product leveraging its experience in the field.

The Company's commercial strategy for its animal health division has commenced generating modest revenues and these are expected to increase strongly during 2014. The Company's primary strategy is to build the sales of raw material, that is TPM<sup>®</sup>, into the animal industry. This strategy is predicated on the need to focus on the opioid development and to minimise costs of development of products in other areas. At the same time, the Company wishes to maximise its valuable assets.

The Company is building a strong skin care division. Consumer products will be combined with dermatological products to form a specialised skin care division. The strategy will be one of licensing the TPM<sup>®</sup> technology for both the consumer products and the pharmaceutical dermatology products, which need to progress through the normal clinical studies associated with any drugs. However the route to market for these products is not expensive. The Company will continue the same strategy with its consumer care products of licensing and producing finished products for third parties. The emphasis on branded products, such as BioElixia<sup>®</sup>, will diminish.

Phosphagenics will announce its new Board shortly. Management views 2014 as the year of rebirth for Phosphagenics.

While 2013 was a difficult year and is now well behind the Company, it did provide several positives, with the TPM/oxymorphone multiple dose results being the clear stand out.

### **Environmental Regulations**

The Company is registered with relevant authorities to use certain compounds in the manufacture of goods. All waste chemicals are disposed of using accredited service providers with notification to the relevant authorities.

## Directors' Report continued

The Company is not aware of any material breaches of any environmental regulations.

### Dividends

The Directors have not recommended the payment of any dividends and no dividends were declared, paid or reinvested in the year to 31 December 2013.

The holders of share options do not have voting rights or the ability to participate in any share or rights issue. Since the end of the financial year no options have been issued or exercised.

### Rounding of Amounts

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable and where noted (\$'000)), under the option available to the company under ASIC Class Order 98/0100. The company is an entity to which the Class Order applies.

### Indemnification of Officers & Auditors

During the financial year, the Company paid a premium in respect of a contract insuring its Directors and Officers against a liability, other than a wilful breach of duty, of a nature that is required to be disclosed under section 300(8) of the Corporations Act 2001 (the Act). In accordance with section 300(9) of the Act, further details have not been disclosed due to confidentiality provisions contained in the insurance contract.

### Directors Meetings

The number of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director was as follows:

	Board of Directors		Audit, Compliance and Corporate Governance Committee	
	Held	Attended	Held	Attended
<b>Non-Executive directors</b>				
Addison, J L	9	9	5	5
Clarke, D	9	9	5	5
James, S <sup>2</sup>	9	8	5	3
Webb, S	9	9	5	5
<b>Executive directors</b>				
Rosen, H	9	9	-	-
Ogru, E <sup>1</sup>	4	3	-	-

<sup>1</sup> Dr E. Ogru was granted a leave of absence and resigned on 18 July 2013.

<sup>2</sup> Mr S. James was granted a leave of absence whilst overseas.

The Audit, Compliance and Corporate Governance Committee has also been mandated by the Board of

Directors to carry out the functions of a Remuneration Committee.

### Committee Membership

For all committees, any two Directors constitutes a quorum. All Directors are eligible to sit on the share allotment committee. The Audit, Compliance and Corporate Governance committee comprises of Independent Directors; D Clarke (chairman), J L Addison, S James and S Webb. Mr Clarke was appointed chairman in August 2010 and continues to remain in this role.

### Directors Shareholdings

As at the date of this report, the interests of the directors in the shares and options of Phosphagenics Limited were:

	Number of Ordinary Shares	Number of rights over ordinary shares	Number of Options Over Ordinary Shares
<b>Non-Executive Directors</b>			
Addison, J L	22,473	750,000	-
Clarke, D	35,484	350,000	-
James, S	-	350,000	-
Webb, S	111,000	350,000	-
<b>Executive directors</b>			
Rosen, H	64,226,436	2,000,000	-
<b>Total</b>	<b>70,107,003</b>	<b>5,800,000</b>	<b>-</b>

The number of rights held by directors, as shown above, are those Performance Rights as approved by shareholders at the 2011 Annual General Meeting ("AGM") per the terms of the Employee Conditional Rights Scheme as established by shareholders at the AGM – refer notes below on Remuneration Report for details of the terms and milestones.

### Share Options

Share options convertible to ordinary shares on issue at the date of this report. All options are unquoted on the Australian Securities Exchange.

Issuing entity	Shares under option No.	Exercise price \$	Expiry date
Phosphagenics	1,000,000	\$0.15	12 May 2014
Phosphagenics	1,750,000	\$0.15	17 June 2014
<b>Total</b>	<b>2,750,000</b>		

## Remuneration Report (Audited)

This remuneration report for the year ended 31 December 2013 outlines the remuneration arrangements of the Company and the Group in accordance with the requirements of the Act and its regulations. This information has been audited as required by section 308(3C) of the Act.

For the purposes of this report, key management personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

### Details of Key Management Personnel

#### Non-Executive Directors

Addison, J L	Chairman and Independent Director
Clarke, D	Independent Director
James, S	Independent Director
Webb, S	Independent Director

#### Executive Directors

Rosen, H	President and Managing Director
Ogru, E	Chief Executive Officer – resigned 18 July 2013

#### Other Key Management Personnel

Alsop, H	Vice President – Operations and Business Development – resigned 8 March 2013
Butala, D	Vice President – Bioanalytical & CMC
El-Tamimy, M	Vice President – Innovation & Development
Gavin, P	Chief Scientific Officer
Kinrade, S	Chief Operating Officer - appointed 21 March 2013 and resigned 8 October 2013
Legg, A	Chief Financial Officer - appointed 22 January 2013
Moses, G	General Manager – Personal Care
Rosen, J	General Counsel

### Remuneration Committee

The Remuneration Committee, part of the Audit, Compliance and Corporate Governance committee, is responsible for determining and reviewing remuneration arrangements for the directors and executives. The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of executives on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality, high performing director and executive team.

### Remuneration Principles and Strategies

The performance of the Company depends upon the quality of its directors and executives. The broad remuneration philosophy is to ensure a remuneration package properly reflects the person's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people of the highest quality.

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

### Non-Executive Directors' Remuneration

#### Objective

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

#### Structure

The Company's Constitution and the ASX Listing Rules both specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. The latest determination was at the Annual General Meeting held on 29 January 2004 when shareholders approved an aggregate remuneration of \$300,000 per year, increased by CPI annually.

The amount of aggregate remuneration for submission to shareholders for approval and the fee structure is reviewed periodically. The Board considers advice from external consultants as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process. A review was conducted in February 2012 resulting in a 10.5% increase to remuneration of Non-Executive Directors, effective 1 March 2012.

From 1 March 2013 each Non-Executive Director receives a base fee of \$42,945 (previously \$42,000) for being a director of the Group. The Chairman receives an additional fee of \$18,420 per annum.

The Non-Executive Directors do not receive retirement benefits, nor do they participate in any short term incentive programs. The Non-Executive Directors participate in the long term incentive scheme (rights issued under the Employee Conditional Rights Scheme (ECRS)) as detailed in the Executive Remuneration. The remuneration of Non-Executive Directors for the period ending 31 December 2013 and 31 December 2012 is detailed in the tables within this report.

### Executive Remuneration

#### Objective

The Group aims to reward executives with a level and mix of remuneration commensurate with their position and responsibilities so as to align the interests of executives with those of shareholders to

## Remuneration Report (Audited)

retain executives at the Company and to ensure that total remuneration is competitive by market standards.

### Structure

In determining the level and make-up of executive remuneration, the board engages external consultants as needed to provide independent advice. The process consists of a review of company and individual performance, relevant comparative remuneration in the market and internally, and where appropriate, external advice on policies and practices.

Remuneration packages contain the following key elements:

- Fixed remuneration (base salary, superannuation and non-monetary benefits),
- Variable remuneration long term incentive (rights issued under the Employee Conditional Rights Scheme (ECRS) and previously under the Employee Share Option Plan (ESOP)).

During 2013 Mr Rosen relocated to New York and in order to receive the same net tax position Mr Rosen's package was adjusted resulting in an increase of 36% to gross remuneration. Remuneration of other non-director executives and key management personnel was reviewed in September 2013, with four staff receiving pay rises averaging 10%.

### Fixed Remuneration

#### Objective

Fixed remuneration is reviewed annually by the Board of Directors. The process consists of a review of Company and individual performance, relevant comparative remuneration externally and internally and, where appropriate, external advice on policies and practices. As noted above, the committee has access to external advice independent of management.

#### Structure

Executives are given the opportunity to receive their fixed (primary) remuneration in a variety of forms including cash and fringe benefits such as motor vehicles. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the Group. Apart from termination benefits which accrue under statute such as unpaid annual leave, long service leave and superannuation benefits, there are no post-employment retirement benefits.

### Variable Remuneration Long Term Incentive Plan

#### Objective

The objective of the long term incentive plan is to reward staff in a manner that aligns remuneration with the creation of shareholder wealth and to ensure that all staff, including executives, views their relationship with the Group as a long-term one. As such the long term incentive plan has been

offered to all staff who met the minimum service criteria.

### Structure

#### Employee Share Option Plan

The long term incentive plan grants to executives are delivered in the form of share options under the Employee Share Option Plan (ESOP). The share options will vest over differing periods depending on the offer conditions, with no opportunity to retest. Executives are able to exercise the share options after vesting and before the options lapse.

Where a participant ceases employment prior to the vesting of their share options, the share options are forfeited unless cessation of employment is due to retirement or death. In the event of a change of control of the Group, the performance period end date will be brought forward to the date of the change of control and awards will vest over this shortened period.

#### Employee Conditional Rights Scheme

The ECRS allows eligible employees to be granted Performance Rights to acquire Shares at no cost. The purpose of the Scheme, and the performance conditions within, is to provide a long term incentive to staff as part of a focus to more closely link overall remuneration to the achievement of performance benchmarks, to encourage direct involvement and interest in the performance of the Company and to enable the acquisition of a long term equity interest in the Company by its staff. All employees, including executive and Non-Executive Directors, and any individual whom the Board determines to be an eligible participant for the purposes of the Scheme, are eligible to participate in the Scheme.

The Scheme will be administered by the Board, with all objectives, determinations, approvals or opinions made or given by the Board in its absolute discretion.

Under the terms of the ECRS, the rights will vest if certain non-market or market conditions are fulfilled. One of the key overriding conditions of the Scheme is that if the 10 day Volume Weighted Average Price is not less than \$0.35 at any time prior to 31 December 2014, then 100% of the Performance Rights will vest. Alternatively, vesting of the Rights is conditional on Phosphagenics achieving the following conditions:

Milestone 1 (16.5% of Rights awarded if achieved by 30 Jun 2012) - Completion of recruitment for the clinical trial of the oxycodone patch, Submission of an IND for the oxycodone patch, and gross revenues from global sales of all non-prescription products of the Company of not less than \$10 million. Rights relating to Milestone 1 remain unvested as this milestone was not achieved.

Milestone 2 (16.5% of Rights awarded if any two of the following achieved by 31 Dec 2013) - Completion of the clinical trial of the oxycodone

## Remuneration Report (Audited)

patch on time and on budget and the Board determines to continue the development and commercialisation of the patch, gross revenues from the commercialisation of the Company's TPM<sup>®</sup> technology for use in or in connection with dermatology products of not less than \$1 million, and gross revenues from global sales of all non-prescription products of the Company of not less than \$20 million.

Milestone 3 (34% of Rights awarded if any two of the following achieved by 31 Dec 2014) - Completion of all pivotal human clinical trials of the oxycodone patch, gross revenues from the commercialisation of the Company's TPM<sup>®</sup> technology for use in or in connection with the dermatology products of not less than \$2 million, and gross revenues from global sales of all non-prescription products of the Company of not less than \$30 million.

Milestone 4 (34% of Rights awarded if either of the following achieved by 31 Dec 2015) - NDA (or equivalent) registration of the oxycodone patch or commercial agreement for the marketing and sale of the oxycodone patch, or gross revenues from global sales of all non-prescription products of the Company of not less than A\$40 million.

The Group's current remuneration policies provide a significant degree of linkage between an executive's variable long term incentive remuneration and the overall financial performance of the Group. Given the position of the Group and its stage of development, the remuneration is aimed at retaining key individuals to ensure the success of current and future product development and successful commercialisation of products, which will in turn impact future profitability of the Group and shareholder wealth.

### Employment Contracts

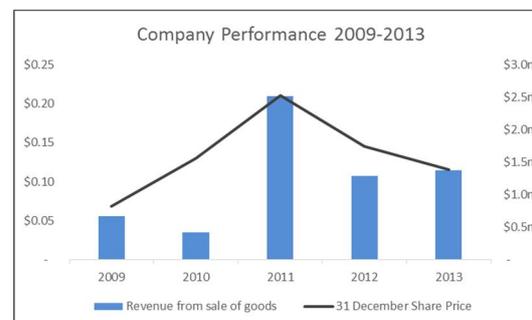

No executives have fixed term contracts with the Group. The Company or the executive may terminate employment by providing four weeks written notice. On termination, any long term incentive plan (ESOP) options or (ECSR) rights that have vested are available to be exercised. Any options or rights that have not yet vested will be forfeited. The Company may terminate employment at any time without notice if serious misconduct has occurred. Where termination with cause occurs the executive is only entitled to that portion of remuneration that is fixed, and only up to the date of termination. On termination with cause, any unvested options or rights will immediately be forfeited.

### Company Performance and its Link to Long-Term Incentives

The financial performance measures driving long-term incentive vesting and payment outcomes are revenues from the sale of goods and Company

share price. Because of the stage of the Company's development, earnings per share and other profitability based measures do not accurately reflect performance over the past five years.

The following chart shows Phosphagenics Limited's annual revenues from the sale of goods and year end share price over the five-year period from 1 January 2009 to 31 December 2013.

### Options Granted During the Year to Key Management Personnel

No options were awarded during the year to key management personnel and no options vested during the year.

### Performance Rights Granted During the Year to Key Management Personnel

1,200,000 (2012: 1,450,000) ECRS Rights were awarded to key management personnel during the year, of which nil vested.

## Directors' Report continued

### Non-audit services

---

The Directors are satisfied that the provision of non-audit services, during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in note 6 to the financial statements.

### Auditor's independence declaration

---

The auditor's independence declaration is included on page 15 of the financial report.

### Changes in State of Affairs

---

During the financial year there was no significant change in the state of affairs of the Consolidated Entity other than that referred to in the financial statements or notes thereto.

### Subsequent events

---

There has not been any matter or circumstances, other than that referred to in the financial statements or notes thereto, that has arisen since the end of the financial year, that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

Signed in accordance with a resolution of the Directors made pursuant to s.298(2) of the *Corporations Act 2001*.

# Corporate Governance Statement

## Corporate Governance Practices & Conduct

The Board of Directors of Phosphagenics Limited is responsible for establishing the corporate governance framework of the Group having regard to the ASX Corporate Governance Council (CGC) published guidelines as well as its corporate governance principles and recommendations. The Board guides and monitors the business and affairs of Phosphagenics Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

The table below summarises the Company's compliance with the CGS's recommendations.

Principle	Recommendation	Comply Yes/No	Reference/explanation	ASX Listing Rule/Recommendation
<b>1</b>	<b>Lay solid foundations for management and oversight</b>			
1.1	Companies should establish the functions reserved to the board and those delegated to senior executives and disclose those functions.	Yes	Page 17	ASX LR 1.1
1.2	Companies should disclose the process for evaluating the performance of senior executives.	Yes	Page 19	ASX LR 1.2
1.3	Companies should provide the information indicated in the guide to reporting on Principle 1.	Yes		ASX LR 1.3
<b>2</b>	<b>Structure the board to add value</b>			
2.1	A majority of the board should be independent directors.	Yes	Page 18	ASX LR 2.1
2.2	The chair should be an independent director.	Yes	Page 18	ASX LR 2.2
2.3	The roles of chair and chief executive officer should not be exercised by the same individual.	Yes	Page 18	ASX LR 2.3

8.4	Companies should provide the information indicated in the Guide to reporting on Principle 8.	Yes		ASX LR 8.3

The Companies corporate governance practices were in place throughout the year ended 31 December 2013

### Board functions

The Board seeks to identify the expectations of the shareholders, as well as other regulatory and ethical expectations and obligations. In addition, the Board is responsible for identifying areas of significant business risk and ensuring arrangements are in place to adequately manage those risks. To ensure that the Board is well equipped to discharge its responsibilities, it has established guidelines for the nomination and selection of directors and for the operation of the Board. The responsibility for the operation and administration of the Group is delegated, by the Board, to the Chief Executive Officer and the executive management team. The Board ensures that this team is appropriately qualified and experienced to discharge their responsibilities and has in place procedures to assess the performance of the Chief Executive Officer and the executive management team. Whilst at all times the Board retains full responsibility for guiding and monitoring the Group, in discharging its stewardship it makes use of sub-committees. Specialist committees are able to focus on a particular responsibility and provide informed feedback to the Board. To this end the Board has established Share Allotment and Audit, Compliance and Corporate Governance Committees.

The Directors in office at the date of this statement, their skills, experience, expertise and period of directorship are detailed in the Directors' Report. In respect of the attendance at Board and Committee Meetings, shareholders are referred to the table of Meeting Attendance contained on page 6.

### Structure of the Board

The skills, experience and expertise relevant to the position of director held by each director in office at the date of the annual report are included in the Directors' Report. Directors of Phosphagenics Limited are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

In the context of director independence, "materiality" is considered from both the Group and individual director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. An item is presumed to be quantitatively immaterial if it is equal to or less than 5% of the appropriate base amount. It is presumed to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 10% of the appropriate base amount. Qualitative factors considered include whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and other factors that point to the actual ability of the director in question to shape the direction of the Group's loyalty.

## Corporate Governance Statement *continued*

In accordance with the definition of independence above, and the materiality thresholds set, the following Directors of Phosphagenics Limited are considered to have the following status:

Name	Position and status	Term in Office
<b>Non-Executive Directors</b>		
Addison, J L	Chairman and Independent Director	11 years
Clarke, D	Independent Director	3 years
James, S	Independent Director	3 years
Webb, S	Independent Director	3 years
<b>Executive directors</b>		
Rosen, H	President	14 years

The Board recognises the Corporate Governance Council's recommendation that the Chair should be an independent director.

### Composition of the Board

The Company's Constitution provides for the appointment of a minimum of three Directors and up to a maximum of eight. At the date of this report, the Company has five Directors comprising one Executive and four Non-Executive Directors. The Chairman of the Board and the Chairman of the Board's Committees' are Non-Executive Directors.

In February 2013 the Board of Directors undertook a review of the status of each Director and reached the opinion that each current Director, apart from Mr Rosen, could be classified as a Non-Executive Director. In addition, this assessment has concluded that Mr Addison, Mr Clarke, Mr James, and Dr Webb qualified as Independent Directors. A further review was undertaken in February 2014 and the Board of Directors reached the opinion that status of each Director has not changed since February 2013.

### Board Responsibilities

The responsibility for the operation and administration of the Company is delegated by the Board to the specifically identified outsourced service providers. The Board ensures that this team of service providers is appropriately qualified and experienced to discharge their responsibilities and has in place procedures to assess their performance.

The Board is responsible for ensuring that management's objectives and activities are aligned with the expectations and risks identified by the Board. The Board has a number of mechanisms in place to ensure this is achieved. In addition to the establishment of specific committees referred in this statement, these mechanisms include the following:

- Implementation of operating plans and budgets by management and Board monitoring of progress against budget – this includes the establishment and monitoring of key performance indicators (both financial and non-financial) for all significant business processes;

- Procedures to allow Directors, in the furtherance of their duties, to seek independent professional advice at the company's expense;
- The review and approval of acquisitions and disposals of businesses and assets, and the approval of contracts and financing arrangements within defined limits; and
- The appointment of an outsourced service provider, which is responsible for managing the Company's public image and communication with shareholders.

In conjunction with an ongoing review of the Board Charter, the Board will consider its responsibilities and delegated authorities to ensure they comply with best practice corporate governance.

### Nomination and Membership

Subject to the provisions of the Company's Constitution, Board composition and selection criteria for Directors are addressed by the full Board. Accordingly, a Nomination and Membership Committee has not been established.

The Constitution provides for events whereby Directors may be removed from the Board. Similarly, shareholders have the ability to nominate, appoint and remove Directors. The Constitution also provides for the regular rotation of Directors, which ensures that Directors, other than the Managing Director, seek re-election by shareholders at least once every three years.

### Independent Professional Advice

Directors, in carrying out their duties as Directors or as members of Board Committees, may, after prior consultation with the Chairman, seek independent professional advice at the expense of the Company. If appropriate, such advice will be available to all Directors.

### Timely and Balanced Disclosure

The Board of Directors has established written policies and procedures designed to ensure compliance and at each meeting of the Board of Directors specifically monitors the Company's activities and disclosures. On average there are between six and ten Board meetings a year. The Board of Directors has endorsed the principles of

best corporate governance practice as set out by the Council.

### **Performance**

The performance of the Board and key executives is reviewed periodically against both measurable and qualitative indicators. The performance criteria against which directors and executives are assessed are aligned with the financial and non-financial objectives of Phosphagenics Limited.

### **Trading Policy**

A Company Share Trading policy was adopted by the Board of Directors in May 2010 and amended by a resolution of directors in December 2010. Under the Company's Share Trading Policy, an executive or director must not trade in any securities of the Company at any time when they are in possession of unpublished, price-sensitive information in relation to those securities; during a blackout period or outside the Executive Trading Windows period without the permission of the Approving Officer. The Directors are permitted to deal in securities in which they have a relevant interest without restriction for any period other than the last day in each half or full year reporting period until six weeks after the release to the ASX of the announcements by the Company of its full year or half year results and six weeks after the date of the Company's annual general meeting. Directors are required to wait at least two business days after the release of any market sensitive announcement by the Company so that the market has had time to absorb the information.

As required by the ASX listing rules, the Company notifies the ASX of any transaction conducted by Directors in the securities of the Company.

### **Board of Directors and its Committees**

The Board of Directors is responsible for the overall governance of the Company inclusive of its strategic development and the direction and the control of operations of the Company. Whilst the Board retains overall responsibility, it has established certain committees to assist in carrying out its responsibilities. Such committees include the Audit, Compliance and Corporate Governance Committee and the Share Allotment Committee.

### **Audit, Compliance and Corporate Governance Committee**

It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations such as the benchmarking of operational key performance indicators.

The Board has delegated responsibility for establishing and maintaining a framework of internal control and ethical standards to the Audit, Compliance and Corporate Governance Committee.

The Committee also provides the Board with additional assurance regarding the reliability of financial information. A Committee charter has been approved by the Board.

The Committee, as at the date of this statement, comprises four Non-Executive Independent Directors; Mr D Clarke (Chairman), Mr J Addison, Mr S James and Dr S Webb. The Company's Auditors are invited to attend meetings and to participate in committee discussions. The CFO and Company Secretary attends committee meetings.

The duties of the Committee include:

- The review of the Audit Program and all matters relevant to the financial affairs of the Company's activities together with the production of Statutory Financial Reports inclusive of the Reports and Declarations by Directors.
- To review and advise on procedures in place to record the Company's activities and to ensure the safety of the Company's records and assets.
- To review Internal Control Procedures and the Auditor's Management letter.
- To review the half-yearly and yearly reports to the ASX Limited together with a review of the scope and quality of the annual statutory audit and the half-year audit review.
- To monitor Compliance with the provisions of the Act, Australian Securities and Investment Commission guidelines and practice notes, ASX Listing Rules, taxation requirements and all regulatory bodies.
- Carry out the functions of the Remuneration Committee.
- Group Risk management.

### **Share Allotment Committee**

Any two Directors will constitute a quorum for this committee, which deals with the allotment of new shares or grant or exercise of options.

### **Internal Control Framework and Ethical Standards**

The Board of Directors seeks to identify the expectations of shareholders as well as other regulatory and ethical expectations and obligations.

These matters are undertaken by the full Board together with the Audit, Compliance and Corporate Governance Committee. In respect of the ethical standards, the full Board regularly discusses the maintenance by the Company of appropriate ethical standards in line with the Council's recommendations.

### **Risk**

The Board acknowledges the Revised Supplementary Guidance to Principle 7 issued by the ASX in June 2008 and has continued its proactive approach to risk management. The identification and effective management of risk, including calculated risk-taking is viewed as an essential part of the company's approach to creating long-term shareholder value.

In recognition of this, the Board determines the Company's risk profile and is responsible for overseeing and approving risk management strategy. The Audit, Compliance and Corporate Governance Committee reviews policies, internal compliance and internal control.

The Audit, Compliance and Corporate Governance Committee oversees the assessment of the effectiveness of risk management and internal compliance and control. The tasks of undertaking and assessing risk management and internal control effectiveness are delegated to management through the Chief Executive Officer and Chief Financial Officer, including responsibility for the day to day design and implementation of the Company's risk management and internal control system.

Management reports to the Audit, Compliance and Corporate Governance Committee on the Company's key risks and the extent to which it believes these risks are being adequately managed. The reporting on risk by management is a standing agenda item at monthly Board meetings.

### **Business Risk**

The main areas of business risk, which are considered on an ongoing basis by the Board, are:

- Failure to develop commercial products from the company's research and development
- Ability to raise capital or generate free cash flow to fund future research and development activities
- Failure to market the company's products
- General economic factors including those affecting interest and exchange rates
- Changes in Corporations and Taxation Law.

### **CEO and CFO certification**

In accordance with section 295A of the *Corporations Act 2001*, the Chief Executive Officer and Chief Financial Officer have provided a written statement to the board that:

- Their view provided on the Company's financial report is founded on a sound system of risk management and internal compliance and control which implements the financial policies adopted by the Board; and
- The Company's risk management and internal compliance and control system is operating effectively in all material respects.

The board agrees with the views of the ASX on this matter and notes that due to its nature, internal control assurance from the Chief Executive Officer and Chief Financial Officer can only be reasonable rather than absolute. This is due to such factors as the need for judgement, the use of testing on a sample basis, the inherent limitations in internal control and because much of the evidence available is persuasive rather than conclusive and therefore is not and cannot be designed to detect all weaknesses in control procedures. In response to this, internal control questions are required to be

completed by the key management personnel in support of these written statements.

### **Remuneration**

The Board is responsible for determining and reviewing compensation arrangements for the directors themselves, the Chief Executive Officer and executive team. A Compensation (Remuneration) Committee has not been separately established, rather the function is performed by the Audit, Compliance and Corporate Governance Committee.

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and executive team by remunerating directors and key executives fairly and appropriately with reference to relevant employment market conditions. For a full discussion of the Company's remuneration philosophy and framework and the remuneration received by directors and executives in the current period please refer to the remuneration report, which is contained within the directors' report.

### **Shareholder communication policy**

Phosphagenics' objective is to promote effective communication with its shareholders at all times. Phosphagenics Limited is committed to:

- Ensuring that shareholders and the financial markets are provided with full and timely information about Phosphagenics' activities in a balanced and understandable way.
- Complying with continuous disclosure obligations contained in applicable the ASX listing rules and the Act in Australia.
- Communicating effectively with its shareholders and making it easier for shareholders to communicate with Phosphagenics Limited.

To promote effective communication with shareholders and encourage effective participation at general meetings, information is communicated to shareholders:

- Through the release of information to the market via the ASX
- Through the distribution of the annual report and Notices of Annual General Meeting
- Through shareholder meetings and investor relations presentations
- Through letters and other forms of communications directly to shareholders
- By posting relevant information on Phosphagenics website:  
[www.phosphagenics.com](http://www.phosphagenics.com).

The Company's website [www.phosphagenics.com](http://www.phosphagenics.com) has a dedicated Investor Relations section for the purpose of publishing all important company information and relevant announcements made to the market. The Company has also established an e-mail directory for the direct distribution of announcements made to the ASX.

The external auditors are required to attend the Annual General Meeting and are available to

## Corporate Governance Statement *continued*

answer any shareholder questions about the conduction of the audit and preparation of the audit report.

Annual Reports are provided to all share and option holders who have elected to receive the Report.

At the meetings of shareholders, Directors are subject to questioning by shareholders about the Directors' stewardship of the Company's affairs and it is shareholders who ultimately vote upon the financial statements and reports, the election of Directors, appointment of Auditors and any matters of Special Business.

### **Diversity**

The Group recognises the value contributed to the organisation by employing people with varying skills, cultural backgrounds, ethnicity and experience. Phosphagenics believes its diverse workforce is the key to its continued growth, improved productivity and performance.

We actively value and embrace the diversity of our employees and are committed to creating an inclusive workplace where everyone is treated equally and fairly, and where discrimination, harassment and inequity are not tolerated. While Phosphagenics is committed to fostering diversity at all levels, gender diversity has been and continues to be a priority for the Group.

To this end, the Group supports and complies with the recommendations contained in the ASX *Corporate Governance Principles and Recommendations*. The Group has established a diversity policy outlining the Board's measurable objectives for achieving diversity. This is assessed annually to measure the progress towards achieving those objectives. The diversity policy is available in the corporate governance section on the Group's website.

Broadly, the Groups measurable objectives are as follows:

- Phosphagenics' state and re-state where necessary that there are no forms of discrimination / bias in considering anyone for a position with the Group, i.e. on grounds of gender; age; physical appearance; origins; race; religion; marital status; sexual preference; pregnancy or likely pregnancy; political leanings; disabilities;
- All new appointments or promotion / career enhancement and remuneration be on the basis of merit and ability to carry out the work responsibilities;
- Within the broad ambit of ensuring that the Group's activities are best developed and to ensure harmony of working within the group that there be flexibility in working hours to enable domestic / private lives to allow for a balance between career and family obligations;
- Consideration be given to job sharing.

The table below outlines the diversity within Phosphagenics Limited:

Level	Female		Male		Total
	Number	%	Number	%	Number
Board	1	20%	4	80%	5
Key Management Personnel	1	17%	5	83%	6
Other staff	17	71%	7	29%	24
<b>Total</b>	<b>19</b>	<b>54%</b>	<b>16</b>	<b>46%</b>	<b>35</b>

Signed in accordance with a resolution of the Directors.

# Notes to the consolidated financial statements

YEAR ENDED 31 DECEMBER 2013

## 1. CORPORATE INFORMATION

The consolidated financial statements of Phosphagenics Limited for the year ended 31 December 2013 was authorised for issue in accordance with a resolution of the Directors on 28 February 2014.

Phosphagenics Limited (the parent) is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange ("ASX").

The nature of the operations and principal activities of the Group are described in the Directors' Report.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Table of Contents	
Basis of Preparation	
(a) Compliance with IFRS	27
(b) New Accounting Standards and Interpretations	27
(c) Basis of consolidation	33
(d) Operating segments	33
(e) Significant accounting judgements estimates and assumptions	33
(f) Cash and cash equivalents	33
(g) Provisions and employee benefits	33

(i) Income tax and other taxes	34
(j) Other taxes	35
(k) Intangible assets	35
(l) Impairment of non-financial assets other than goodwill	35
(m) Investments and other financial assets	36
(n) Trade and other payables	36
(o) Share-based payment transactions	36
(p) Leases	36
(q) Inventories	37
(r) Trade and other receivables	37
(s) Plant and equipment	37
(t) Revenue recognition	37
(u) Issued Capital	37
(v) Foreign currency translation	37
(w) Earnings per share	38

### Basis of Preparation of the financial report

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report has also been prepared on a historical cost basis.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated.

### Restatement of Comparatives

Comparative amounts have been restated as a result of the correction of prior period errors as described in Note 20 and for changes in accounting policies as described in Note 21.

In addition, the presentation of expense categories has been reassessed in the current period and comparative amounts have been adjusted between categories to be consistent with the current period presentation.

### **Change in Accounting Policy**

The accounting policies and methods of computation are the same as those adopted in the most recent annual financial report has been prepared on the historical cost basis except as described below.

The Company notes the release of Exposure Draft ED/2012/5 Clarification of Acceptable Methods of Depreciation and Amortisation which is anticipated to be approved as an amendment to accounting standards. The Company believes this provides additional guidance as to the standard setter's intentions regarding the application of AASB138 Intangible Assets in respect of amortising intangible assets.

The Company believes the guidance in the Exposure Draft would require its finite life intangible assets to be amortised from their date of acquisition as compared to its current accounting policy of amortising from the date that they are available for use by reference to the first production of significant revenue.

Consequently, the Company has made a voluntary change in accounting policy to amortise its intangible assets from their acquisition date and has reflected this policy change in the financial report on a retrospective basis as required by Accounting Standards. The impact of the change in accounting policy is set out in Note 21.

### **(a) Compliance with IFRS**

The financial report also complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

### **(b) New Accounting Standards and Interpretations**

#### *i) Changes in accounting policy and disclosure*

With the exception of the change in accounting policy described above, the accounting policies adopted are consistent with those of the previous financial year. The Group has not adopted any new or amended Australian Accounting Standards and AASB Interpretations during the year.

#### *(ii) Accounting Standards and Interpretations issued but not yet effective*

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective and have not been adopted by the Group for the annual reporting period ending 31 December 2013, outlined in the table below:

		<p>Board's Annual Improvements process. These amendments have not yet been adopted by the AASB.</p> <p>The following items are addressed by this standard:</p> <p>IFRS 13 - Clarifies that the portfolio exception in paragraph 52 of IFRS 13 applies to all contracts within the scope of IAS 39 or IFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities as defined in IAS 32.</p> <p>IAS 40 - Clarifies that judgment is needed to determine whether an acquisition of investment property is solely the acquisition of an investment property or whether it is the acquisition of a group of assets or a business combination in the scope of IFRS 3 that includes an investment property. That judgment is based on guidance in IFRS 3.</p>		impact.	
AASB 1031	Materiality	<p>The revised AASB 1031 is an interim standard that cross-references to other Standards and the <i>Framework</i> (issued December 2013) that contain guidance on materiality. AASB 1031 will be withdrawn when references to AASB 1031 in all Standards and Interpretations have been removed.</p>	1 January 2014	The amendments may have an impact on the Group however the Group has not yet assessed the impact.	1 January 2014
AASB 2013-9	Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments	<p>The Standard contains three main parts and makes amendments to a number Standards and Interpretations.</p> <p>Part A of AASB 2013-9 makes consequential amendments arising from the issuance of AASB CF 2013-1.</p> <p>Part B makes amendments to particular Australian Accounting Standards to delete references to AASB 1031 and also makes minor editorial amendments to various other standards.</p> <p>Part C makes amendments to a number of Australian Accounting Standards, including incorporating Chapter 6 <i>Hedge Accounting</i> into AASB 9 <i>Financial Instruments</i>.</p>		The amendments may have an impact on the Group however the Group has not yet assessed the impact.	

### (c) Basis of consolidation

The consolidated financial statements comprise the financial statements of Phosphagenics Limited and its subsidiaries as at and for the year ended 31 December each year ('the Group').

Subsidiaries are all those entities over which the Group has the power to govern the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether a group controls another entity.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

Investments in subsidiaries held by Phosphagenics Limited are accounted for at cost in the separate financial statements of the parent entity less any impairment charges.

### (d) Operating Segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of directors.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements.

Information about other business activities and operating segments that are below the quantitative criteria are combined and disclosed in a separate category for "all other segments".

### (e) Significant accounting judgements, estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

#### *Share-based payment transactions*

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using the Binomial method taking into account the terms and conditions upon which the instruments were granted, as discussed in note 5. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact expenses and equity.

#### *Development costs*

An intangible asset arising from development expenditure on an internal project is recognised only when Phosphagenics can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Any expenditure capitalised is amortised over the period of expected future benefit from the related project on a straight line basis. The carrying value of capitalised developments costs not yet available for use is tested for impairment annually at 31 December.

Certain development costs relate to patents which have finite lives. These costs are being amortised over their remaining useful lives which ranges between 9 to 12 years.

### (f) Cash and cash equivalents

Cash and short term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant rate of change in value.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

### (g) Provisions and employee benefits

#### *General*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision

is presented in the statement of comprehensive income net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects the current market assessments of the time value of money and the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

### Employee leave benefits

#### *Wages, salaries and annual leave.*

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within twelve months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

#### *Long service leave*

The liability for long service leave is recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

### **(h) Government grants**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

Income is also recognised where there is a reasonable assurance that a cash benefit will arise under the R&D tax incentive from eligible expenditure incurred during the period.

### **(i) Income Tax**

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised:

- except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the statement of comprehensive income.

### Tax consolidation legislation

Phosphagenics Limited and its wholly-owned Australian controlled entities elected to form a tax consolidation group as of 1 July 2009. As a result the tax base of intangible assets was reset such that the deferred tax liability of \$13,830,498 was reversed during the year ended 31 December 2011.

The head entity, Phosphagenics Limited and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the Group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, Phosphagenics Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

### (j) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

### (k) Intangible assets

Intangible assets acquired separately or in a business combination are initially measured at cost. The cost of an intangible asset acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the statement of comprehensive income in the year in which the expenditure was incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful life and tested for impairment whenever there is an indication

that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the amortisation period or method, as appropriate, which is a change in accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in the statement of comprehensive income in the expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangibles are not amortised. The useful life of an intangible asset with an indefinite life is reviewed each reporting period to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for as a change in an accounting estimate and is thus accounted for on a prospective basis.

### Research and Development costs

Research costs are expensed as incurred. An intangible asset arising from development expenditure on an internal project is recognised only when Phosphagenics can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Following the initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure so capitalised is amortised over the period of expected benefit from the related project.

The carrying value of an intangible asset arising from development expenditure is tested for impairment annually when the asset is not yet available for use, or more frequently when an indication of impairment arises during the reporting period.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of comprehensive income when the asset is derecognised.

### (l) Impairment of non-financial assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

The Group conducts an annual review of asset values, which is used as a source of information to assess for any indicators of impairment. External factors, such as changes in expected future processes, technology and economic conditions, are also monitored to assess for indicators of impairment. If any indication of impairment exists, an estimate of the asset's recoverable amount is calculated.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that have previously been impaired are tested for possible reversal of the impairment whenever events or changes in circumstances indicate that the impairment may have reversed.

### **(m) Investments and other financial assets**

Investments and other financial assets in the scope of AASB 139 *Financial Instruments: Recognition and Measurement* are categorised as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired or originated. Designation is re-evaluated at each reporting date, but there are restrictions on reclassifying to other categories.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

#### *Available-for-sale financial assets*

Available-for-sale financial assets are those non-derivative financial assets, principally equity securities that are designated as available-for-sale or are not classified as any of the three preceding categories. After initial recognition available-for-sale financial assets are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in the statement of comprehensive income.

The fair value of investments that are actively traded in organised financial markets are determined by reference to quoted market bid prices at the close of business on the reporting date.

### **(n) Trade and other payables**

Trade payables and other payables are carried at amortised costs and are not discounted due to their short term nature. They represent liabilities for goods and services provided to the Group prior to the end of

the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are not secured and are usually paid within 30 days of recognition.

### **(o) Share-based payment transactions**

The Group provides benefits to its employees, including Key Management Personnel (KMP), in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions). There is currently two plans in place to provide these benefits being the Employee Share Option Plan (ESOP), and the Employee Conditional Rights Scheme (ECRS) which provides benefits to key management personnel.

In valuing equity-settled transactions, no account is taken of any vesting conditions, other than conditions linked to the price of the shares of Phosphagenics Limited.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled (the vesting period), ending on the date on which the relevant party becomes fully entitled to the award (the vesting date).

The charge to the statement of comprehensive income for the period is the cumulative amount as calculated above less the amounts already charged in previous periods. There is a corresponding entry to equity.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

In reporting periods where a net loss is reported, options are considered anti-dilutive and therefore are excluded in the calculation of diluted earnings per share. Where a net profit is reported, options are considered dilutive and therefore included in the calculation of diluted earnings per share.

### **(p) Leases**

Leases where the lessor retains substantial risks and reward of ownership are classified as operating leases. Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight-line basis over the lease term.

### (q) Inventories

Inventories including raw materials, work in progress and finished goods are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

#### *Raw materials*

Purchase cost on a first-in, first-out basis. The cost of purchase comprises the purchase price including, import duties and other taxes (other than those subsequently recoverable by the entity from the taxing authorities), transport, handling and other costs directly attributable to the acquisition of raw materials. Volume discounts and rebates are included in determining the cost of purchase.

#### *Finished goods and work-in-progress*

Cost of direct materials, labour and a proportion of variable and fixed manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

### (r) Trade and other receivables

Trade receivables, which generally have thirty to sixty day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Group will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than ninety days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

### (s) Plant and Equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated on a diminishing value basis as follows:

Computer Equipment – 33% p.a.

Plant and equipment – 20% p.a.

Office Equipment - 20% p.a.

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each reporting period. When no future economic benefits are expected to arise from the continued use of an item of property, plant and equipment, it is derecognised. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the

statement of comprehensive income in the year the item is derecognised.

### (t) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable taking into account contractually defined terms of payment and excluding taxes or duty. The following specific recognition criteria must also be met before revenue is recognised:

#### *Sale of goods*

Revenue from the sale of goods is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership of the goods and the costs in respect of the transaction can be reliably measured. Risks and rewards are considered passed to the buyer at the time of delivery of the goods to the customer.

#### *Royalties*

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement.

#### *Interest income*

Revenue is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset) to the net carrying amount of the financial asset.

### (u) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### (v) Foreign currency translation

#### *Functional and presentation currency*

Both the functional and presentation currency of Phosphagenics Limited and its Australian subsidiaries' is Australian dollars (\$). The United States subsidiary's functional currency is United States Dollars which is translated to the presentation currency.

#### *Transactions and balances*

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

### *Translation of Group Companies functional currency to presentation currency*

The results of the United States subsidiary are translated into Australian Dollars as at the date of each transaction. Assets and liabilities are translated at exchange rates prevailing at reporting date. Exchange variations resulting from the translation are recognised in the foreign currency translation reserve in equity.

On consolidation, exchange differences arising from the translation of the net investment in the United States subsidiary are taken to the foreign currency translation reserve. If the United States subsidiary

were sold, the proportionate share of exchange differences would be transferred out of equity and recognised in the profit and loss.

### **(w) Earnings per share**

Basic earnings per share is calculated as net profit or loss attributable to members of the parent divided by the weighted average number of ordinary shares. Where the Group generates a loss attributable to members of the parent, basic and diluted earnings per share are the same as a loss attributable to members of the parent cannot be further diluted.

## 3. OTHER REVENUE AND EXPENSES

	2013	2012
	\$'000	\$'000
<b>(a) Licenses</b>		
Licenses - other	229	246
<b>Total</b>	<b>229</b>	<b>246</b>

### (b) Income from Government Grants

Export market development grant	155	27
R&D Incentive credit	2,839	2,958
<b>Total</b>	<b>2,994</b>	<b>2,985</b>

The R&D incentive credit is the estimated cash payment received as a 45% offset of eligible expenditure in developing the Company's products through research and development activities undertaken for the year ended 31 December 2013.

### (c) Recoveries

Recoveries received	1,356	-
Recoveries receivable	334	-
<b>Total</b>	<b>1,690</b>	<b>-</b>

Recoveries are recognised where they are virtually certain. See further details at note 16.

### (d) Consulting and profession expenses

Legal costs associated with investigation and recovery of misappropriations	(749)	-
Other consulting and professional expenses	(1,783)	(1,182)
<b>Total</b>	<b>(2,532)</b>	<b>(1,182)</b>

### (e) Other Expenses

Net foreign exchange gain / (loss)	(12)	21
Travel	(202)	(244)
Doubtful debts	(263)	(96)
Insurance	(193)	(210)
Obsolete stock	(370)	(100)
Other	(223)	(144)
<b>Total</b>	<b>(1,263)</b>	<b>(773)</b>

## 4. INCOME TAXES

	2013 \$'000's	2012 \$'000's
Major components of income tax expense are:		
<i>Current income tax</i>	-	-
<i>Deferred income tax</i>	-	-
The prima facie income tax expense/(benefit) on pre-tax accounting profit from operations reconciles to the income tax expense in the financial statements as follows:		
<b>Accounting (loss) before income tax</b>	<b>(12,673)</b>	<b>(10,513)</b>
Income tax expense calculated at 30% (2012: 30%)	(3,802)	(3,154)
Non-assessable income	(507)	-
Non-deductible expenses	465	473
Unused tax losses and tax offsets not recognised as deferred tax assets	3,844	2,681
<b>Income tax benefit reported in income statement</b>	<b>-</b>	<b>-</b>
<b>Deferred tax liabilities comprise:</b>		
Intellectual property	-	-
<b>Unrecognised deferred tax balances</b>		
The following items have not been brought to account as deferred tax assets:		
Tax losses not recognised	24,226	21,845
Temporary differences not recognised	-	-
<b>Total</b>	<b>24,226</b>	<b>21,845</b>

### Tax Losses

Deferred tax assets have not been recognised in respect of carried forward tax losses.

### Tax consolidation

*(i) Members of the tax consolidated group and the tax sharing arrangement*

Phosphagenics Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2009. Phosphagenics Limited is the head entity of the tax consolidated group. As a result the tax base of intangible assets was reset such that the deferred tax liability of \$13,830,498 was reversed during 2011.

*(ii) Tax effect accounting by members of the tax consolidated group*

*Measurement method adopted under AASB Interpretation 1052 Tax Consolidation Accounting*

The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the Group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the broad principles in AASB 112 *Income Taxes*.

## 5. SHARE BASED PAYMENTS

The Group provides benefits to service providers in the form of share-based payments. Employees render services in exchange for rights over shares (equity-settled transactions). There are currently two schemes in place to provide these benefits to employees, being the Employee Share Option Plan (ESOP) and the Employee Conditional Rights Scheme (ECRS).

- The ESOP is designed to align participants' interests with those of shareholders by increasing the value of the Company's shares. Share options carry no rights to dividends and no voting rights. For options granted under the terms of the ESOP a service period was determined as the most appropriate criteria to attach to the options given Phosphagenics is still commercialising its products. There are no other services or performance criteria attached to share based payment options issued under the terms of the ESOP.
- The ECRS allows eligible employees to be granted Rights to acquire Shares at no cost. The

purpose of the Scheme is to provide a long term incentive to staff as part of a focus to more closely link overall remuneration to the achievement of performance benchmarks, to encourage direct involvement and interest in the performance of the Company and to enable the acquisition of a long term equity interest in the Company by its staff. All employees, including executive and Non-Executive Directors, and any individual whom the Board determines to be an eligible participant for the purposes of the Scheme, are eligible to participate in the Scheme.

Options held by directors of the parent and its subsidiaries were acquired as part of the original subscriptions for shares in Phosphagenics Limited in 1999. Subsequently, all options granted to key management personnel have been issued in accordance with the provisions of the Employee Share Option Plan (ESOP). All rights granted to key management personnel have been issued in accordance with the provisions of the Employee Conditional Rights Scheme (ECRS).

### Summary of options granted as share based payments

The following table illustrates the number (No.) and weighted average exercise prices (WAEP) of, and movements in, share options issued during the year.

Item	2013	2013	2012	2012
	Options No.	WAEP \$	Options No.	WAEP \$
Outstanding at beginning of the year	9,400,000	\$0.15	13,150,000	\$0.17
Granted during the year	-	-	-	-
Forfeited during the year	-	-	-	-
Exercised during the year	(250,000)	\$0.13	(2,650,000)	\$0.13
Expired during the year	(6,400,000)	\$0.26	(1,100,000)	\$0.26
<b>Outstanding at end of the year</b>	<b>2,750,000</b>	<b>\$0.15</b>	<b>9,400,000</b>	<b>\$0.15</b>
Exercisable at end of the year	2,750,000	\$0.15	9,400,000	\$0.15

When a participant in the employee share option plan ceases employment prior to the vesting of their share options, the share options are forfeited unless cessation of employment is due to retirement or death.

A service period was determined as the most appropriate criteria to attach to the options given Phosphagenics is still developing its products for commercialisation. There is no other service or performance criteria attached to share based payment options.

The outstanding balance as at 31 December 2013 is represented by:

Issuing entity	Australian stock exchange listed	Shares under option No.	Class of shares	Exercise price \$	Expiry date
Phosphagenics Ltd	unquoted	1,000,000	Ordinary	\$0.15	14 May 2014
Phosphagenics Ltd	unquoted	1,750,000	Ordinary	\$0.15	17 June 2014
<b>Total</b>		<b>2,750,000</b>			

## Notes to the consolidated financial statements continued

### Summary of performance rights granted as share based payments

The following table illustrates the number (No.) and weighted average exercise prices (WAEP) of, and movements in, performance rights issued during the year.

Item	2013	2013	2012	2012
	Performance Rights No.	WAEP \$	Performance Rights No.	WAEP \$
Outstanding at beginning of the year	18,100,000	-	17,400,000	-
Granted during the year	2,100,000	0.00	1,850,000	0.00
Forfeited during the year	(4,200,000)	-	(1,150,000)	-
Exercised during the year	-	-	-	-
Expired during the year	-	-	-	-
<b>Outstanding at end of the year</b>	<b>16,000,000</b>	<b>0.00</b>	<b>18,100,000</b>	<b>0.00</b>
Exercisable at end of the year	Nil	-	Nil	-

When a participant in the ECRS ceases employment prior to the vesting of their performance rights, the performance rights are forfeited unless cessation of employment is due to retirement or death. At 31 December 2013 \$162,273 was reversed as a result of forfeited unvested performance rights.

The outstanding balance as at 31 December 2013 is represented by:

Issuing entity	Australian stock exchange listed	Performance Rights No.	Class of shares	Exercise price \$	Expiry date
Phosphagenics Ltd	unquoted	16,000,000	Ordinary	\$0.00	30 June 2016
<b>Total</b>		<b>16,000,000</b>			

The expense recognised from equity settled share based performance transactions during the year is \$364,072. There were no cancellations or modifications to the awards in 2013 or 2012.

### Option pricing model

Fair values for both instruments are calculated using a Binomial model. Options and Rights will be settled in ordinary shares of Phosphagenics Limited and vested options/rights lapse if unexercised after the expiry date.

In valuing equity-settled transactions, no account is taken of any vesting conditions, other than conditions linked to the price of the shares of Phosphagenics Limited. The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled (the vesting period), ending on the date on which the relevant party becomes fully entitled to the award (the vesting date).

During the year ended 31 December 2013 no share options were granted under the ESOP (2012: nil).

During the year ended 31 December 2013 2,100,000 share rights were granted at a fair value of \$0.02 under the ECRS (2012: 1,850,000) which will vest based upon achievement of certain performance objectives. In 2012 these rights consisted of 1,650,000 share rights with a fair value of \$0.14 and 200,000 share rights with a fair value of \$0.09.

During the year ended 31 December 2013 no options were granted to non-employees (2012: nil).

## Notes to the consolidated financial statements continued

<b>Model Inputs</b>	<b>2013 Rights</b>	<b>2012 Rights</b>	<b>2012 Rights</b>
Dividend yield %	0.00%	0.00%	0.00%
Expected volatility %	60%	60%	60%
Risk-free interest rate %	2.50%	4.00%	4.00%
Option life (years)	1.1 years	2.8 years	2.3 years
Option Exercise price \$	Nil	Nil	Nil
Weighted Average Share price at measurement date	\$0.11	\$0.24	\$0.16

The expected life of the rights is based on historical data and is not necessarily indicative of exercise patterns that may occur.

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may not necessarily be the actual outcome.

### 6. REMUNERATION OF AUDITORS

The auditor of Phosphagenics Ltd (the parent), and the Group is Ernst & Young.

	<b>2013</b>	<b>2012</b>
<b>Amounts received or due and receivable by Ernst &amp; Young</b>	<b>\$</b>	<b>\$</b>
Audit or review of the financial report	83,185	84,935
Other non-audit services	-	1,740
Taxation services	35,027	50,500
<b>Total</b>	<b>118,212</b>	<b>137,175</b>

### 7. TRADE AND OTHER RECEIVABLES

<b>Current</b>	<b>31 December 2013 \$'000</b>	<b>31 December 2012 Restated \$'000</b>	<b>1 January 2012 Restated \$'000</b>
Trade receivables	589	485	644
Allowance for impairment loss	(262)	(100)	(8)
	327	385	636
R&D tax incentive credit receivable	3,499	3,881	923
Recoveries receivable	334	-	-
Other receivables <sup>1</sup>	261	289	609
<b>Total</b>	<b>4,421</b>	<b>4,555</b>	<b>2,168</b>

<sup>1</sup> In Other receivables an amount of \$139,624, representing accrued royalties receivable, has been reclassified from Other current assets in 2012.

## Notes to the consolidated financial statements *continued*

The restatement of amounts in R&D tax incentive credit receivable includes a prior period adjustment of \$208,480 at 1 January 2012 and \$578,316 at 31 December 2012. These amounts have been restated for the prior period error described in note 20.

Trade receivables are non-interest bearing and are generally 45 day terms or as specified in contracts or agreements.

### *Allowance for impairment loss*

A provision for impairment is recognised when there is objective evidence (such as the probability of insolvency or significant financial difficulty of the debtor) that the Group may not be able to collect all the amounts due under the original terms of the invoice. Impaired debts are derecognised when they are assessed as uncollectible. Debts totalling \$262,299 (2012: \$100,104) were deemed impaired at 31 December 2013. A debt of \$100,104 was written-off during the year as it was deemed non-recoverable (2012: nil).

At 31 December, the ageing analysis of trade receivables is as follows:

Period	Total \$'000	Neither past due or impaired \$'000	Past due but not impaired		
			31-60 days \$'000	61-90 days \$'000	90+ days \$'000
			31 December 2013	327	75
31 December 2012	385	61	203	32	89

Other balances within trade and other receivables do not contain impaired assets and are not past due. It is expected that these other balances will be received when due.

### *Fair value and credit risk*

Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value. The maximum exposure to credit risk is the fair value of receivables.

## 8. INVENTORIES

	2013 \$'000	2012 \$'000
Raw materials (at cost or net realisable value)	375	593
Finished goods (at cost or net realisable value)	324	261
<b>Total inventories at the lower of cost and net realisable value</b>	<b>699</b>	<b>854</b>

During 2013, \$369,580 (2012: \$104,300) was recognised as an expense for inventories written off or a provision raised for inventories adjusted to their net realisable value. This is recognised in Other expenses.

9. PLANT AND EQUIPMENT

	Plant and equipment	
	at cost	Total

Accumulated amortisation and impairment	(91,179)	(1,959)	(93,138)
Net carrying amount	30,183	1,336	31,519

## Impairment Testing

### Intellectual Property

Intellectual property assets cost represents the fair value of patents acquired by the Company at 31 December 2004.

Intangible assets with finite lives are amortised over the useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the amortisation period or method, as appropriate, which is a change in accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in the statement of comprehensive income in the expense category consistent with the function of the intangible asset.

### Development costs

Development expenditure on an internal project is recognised as an intangible asset only when Phosphagenics can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Capitalised development costs relating to patents are amortised from the date significant revenues are carried over the remaining patent life.

Development expenditure is tested for impairment annually, when the asset is not yet available for use, or more frequently when an indication of impairment arises during the reporting period. At 31 December 2013 zero development costs were impaired and recognised as an expense (2012: Nil).

## 11. CURRENT TRADE AND OTHER PAYABLES

	31 December 2013	31 December 2012 Restated	1 January 2012 Restated
	\$'000	\$'000	\$'000
Trade payables	311	549	1,977
Accrued expenses	810	341	1,123
Goods and services tax (GST) payable	469	384	260
Other payables	98	190	209
<b>Total</b>	<b>1,688</b>	<b>1,464</b>	<b>3,589</b>

The restatement of amounts in GST payable and Accrued expenses includes prior year adjustments of \$363,595 at 31 December 2012 and \$231,231 at 1 January 2012. These amounts have been restated for the prior period error described in note 20.

An amount of \$190,621 was reclassified from accrued expenses to other payables in 2012. An amount of \$37,861 was reclassified from accrued expenses to trade payables in 2012.

Due to the short-term nature of these payables, their carrying value is assumed to approximate their fair value. Trade payables are non-interest bearing and are generally settled on 30 day terms. Other payables are non-trade payables and non-interest bearing.

12. PROVISIONS

	2013	2012
	\$'000	\$'000
<b>Current</b>		
Annual leave benefits	262	247
Long service leave benefits	170	105
<b>Total Current</b>	<b>432</b>	<b>352</b>
<b>Non-Current</b>		
Long service leave benefits	67	56
<b>Total Non-Current</b>	<b>67</b>	<b>56</b>

13. ISSUED CAPITAL

Fully paid ordinary shares	2013	2013	2012	2012
	No. '000's	\$'000	No. '000's	\$'000
Balance at beginning of year	1,020,215	209,861	1,017,565	209,546
Issue of shares	-	-	-	-
Exercise of options	250	36	2,650	356
Capital raising costs	-	(2)	-	(41)
<b>Balance at end of year</b>	<b>1,020,465</b>	<b>209,895</b>	<b>1,020,215</b>	<b>209,861</b>

Fully paid ordinary shares carry one vote per share and carry the right to dividends.

**Share options**

As at close of business on 31 December 2013 there were a total of 2,750,000 unexercised unquoted options issued as share based payments, of which 2,750,000 options are fully vested and can be exercised at any time up to the date of expiry.

As at close of business on 31 December 2013 there were a total of 16,000,000 unexercised unquoted rights issued as share based payments, of which nil are fully vested, and therefore cannot yet be exercised.

Share options and share rights carry no rights to dividends and no voting rights. For further details of share based payments refer to note 5.

## 14. RESERVES

	2013	2012
	\$'000	\$'000
<b>Reserves</b>		
Business combination	27,812	27,812
Employee equity-settled benefits	1,790	1,588
Other equity-settled benefits	306	306
Foreign Currency Translation Reserve	6	18
	29,914	29,724

### Business combination reserve

Balance at beginning of year	27,812	27,812
Balance at end of year	27,812	27,812

The business combinations reserve is used to record fair value adjustments relating to the business combination

### Employee equity-settled benefits reserve

Balance at beginning of year	1,588	1,193
Share based payment expense	202	395
Balance at end of year	1,790	1,588

The employee share option and share plan reserve is used to record the value of equity benefits provided to employees and Directors as part of their remuneration. For further details refer to note 5 in the Financial Statements.

### Other equity-settled benefits reserve

Balance at beginning of year	306	306
Share based payments	-	-
Balance at end of year	306	306

The other equity-settled benefits reserve is used to record the value of equity benefits provided to suppliers as part of their remuneration.

### Foreign Currency Translation Reserve

Balance at beginning of year	18	7
Foreign Currency Translation	(12)	11
Balance at end of year	6	18

The foreign currency translation reserve is used to record the translation from Phosphagenics Inc.'s functional currency into Phosphagenics Ltd's reporting currency.

## 15. EARNINGS PER SHARE

### Basic earnings per share

Basic earnings per share is calculated by dividing the net profit / (loss), from continuing operations attributable to ordinary equity holders of the parent for the year, by the weighted average number of ordinary shares outstanding during the year.

### Diluted earnings per share

Diluted earnings per share is calculated by dividing the net profit / (loss) attributable to ordinary shareholders by the weighted average number of ordinary shares on issue during the year (adjusted for the effects of dilutive options).

There are no instruments (e.g., share options) excluded from the calculation of diluted earnings per share that could potentially dilute basic earnings per share in the future.

There have been no transactions involving ordinary shares or potential ordinary shares that would significantly change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of completion of these financial statements.

Profit / (loss) used in calculating earnings per share	2013 \$'000's	2012 \$'000's
Net Profit / (loss) from continuing operations attributable to ordinary equity holders for the calculation of basic and diluted earnings per share	(12,673)	(10,513)
Weighted average number of shares	2013 No. '000's	2012 No. '000's
Weighted average number of ordinary shares for the purposes of basic earnings per share	1,020,402	1,019,318
Effect of dilution:		
Share options	4,948	10,773
Performance rights	16,937	18,535
Weighted average number of ordinary shares adjusted for the effect of dilution	1,042,287	1,048,626

### Information on the classification of securities

Options quoted on the ASX and options granted to employees and other service providers are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent they are dilutive. These options have not been included in the determination of basic earnings per share.

## 16. COMMITMENTS AND CONTINGENCIES

### Lease Commitments

Non-cancellable operating leases relate to the rent of commercial property used for business operations.

Non-cancellable operating lease payments	2013 \$'000's	2012 \$'000's
Within 1 year	54	176
After 1 year but not more than 5 years	-	142
After more than 5 years	-	-
Total minimum lease payments	-	318

### Contingent Assets

On 30 October 2013 the Company entered into a Deed of Settlement with its former CEO, Dr Ogru, her husband, Vedat Isikgel and her mother, Esin Ogru, for the misappropriated funds of \$6,331,396 plus interest and costs. As at reporting date \$1,050,620 had been repaid. A further amount of \$26,826 has been recognised in other income for share sales in January 2014. The expected net proceeds of \$1,290,000 from the sale of Dr Ogru's principal place of residence to her father, Sabah Ogru, has not been recognised in other income as the settlement was not held to be virtually certain. The property is due for settlement in March 2014 and income will be recognised on transfer of funds. Further recoveries may eventuate from the sale of one additional property and a portion of Dr Ogru's future total income. The Company holds caveats over all real property.

On 7 November 2013 the Company entered into a Deed of Settlement with an unnamed third party, his wife and associated companies, for misappropriated funds of \$4,392,035 plus interest and costs. These amounts are joint and severally liable with Dr Ogru's debt. As at reporting date \$305,913 had been repaid by these parties. The Company holds a first ranking mortgage over the parties' principal place of residence due for sale by late March 2014. The Company expects to receive in excess of \$750,000, but due to the uncertainty regarding the property's valuation the recovery has not been recognised in income. Further recoveries may eventuate from the repayment from a portion of all parties' future total income.

On 18 December 2013 the Company, and its subsidiary Vital Health Sciences Pty Ltd, was awarded judgement in the Supreme Court of Victoria against its former employee Dr Gianello, his wife and an associated company. An amount of \$6,053,772 was awarded for damages, \$44,587 for interest and \$23,106 for costs. The damages awarded are joint and several with the debts of the two Deeds described above. On 6 February 2014 Dr Gianello and his wife filed for bankruptcy. Due to the uncertainty of proceedings no recoveries have been recognised. The Company is the largest creditor and is actively pursuing its claims.

On 20 December 2013 Phosphagenics entered into an agreement with its former CEO, Dr Ogru, its former employee, Dr Gianello and the shareholders of a German company, which had previously sold its Intellectual Property to a US company. The German company is entitled to payments from the US company upon certain milestones being met. Phosphagenics will be entitled to a share of these milestone payments should they eventuate. On 12 February 2014 the Company received Dr Ogru's share of a milestone payment made in July 2013. An amount of \$260,706 has been recognised in income. Future receipts are dependent upon the US company

achieving development milestones, which are uncertain, and therefore no future benefits have been recognised in the accounts. Should the US company achieve its next two development milestones, for each milestone the Company would receive approximately \$250,000 with respect to Dr Ogru's share. Dr Gianello's share, which is the same as Dr Ogru's, will be paid to a law firm trust account and be included in any bankruptcy considerations.

## 17. SEGMENT INFORMATION

### Identification of reportable segments

The group has identified its operating segments based on the internal reports that are reviewed and used by the Chief Executive Officer in assessing the performance and in determining the allocation of resources.

The operating segments are identified by management based on the group's risks and returns that are affected predominantly by differences in the products and services provided. The reportable segments are based on aggregated operating segments determined according to the nature of the products and services provided, with each reportable segment representing a strategic business unit that offers different products and serves different markets.

The Animal Health segment did not meet materiality levels and has been included within the Unallocated segment.

### Types of products and services

#### *Skin Care*

Skin Care is the use of TP in a range of products to improve the appearance of skin. Discovery research at Phosphagenics has shown that  $\alpha$ -tocopheryl phosphate (TP) is a natural molecule with increased activity over standard Vitamin E ( $\alpha$  tocopherol). TP has scientifically proven anti-inflammatory properties, it reduces redness, protects against UV induced photo damage, and also helps to heal and prevent acne. The structure of TP allows it to act as a penetration enhancer, increasing dermal absorption compared to tocopherol acetate and  $\alpha$ -tocopherol, allowing it to penetrate deeper into the skin for increased action. TPM<sup>®</sup> is also able to increase the penetration of molecules formulated in the same cream.

Phosphagenics has commercialised a range of skin care products under the brand name BioElixia<sup>®</sup>, within two categories: high performance skin care and BodyShaper products. In Australia these products are sold on-line, through home shopping channel TVSN, at major department stores, David Jones and Myer, as well as Priceline and other pharmacy chains.

The Company is conducting research into dermatological products and is currently in a Phase 2 clinical study for the reduction of acne.

## Notes to the consolidated financial statements *continued*

### **Pain Portfolio**

Phosphagenics' pain portfolio is focused on enhancing the delivery of existing drugs used for pain treatment. Its focus is primarily on delivering opioids, previously administered orally, through the skin utilising Phosphagenics' delivery technology TPM®.

The route to market for Phosphagenics' pain portfolio is by partnering with large pharmaceutical companies at the appropriate stage in a product's development to maximise return on the Company's research and development investment.

### **Accounting policies and inter-segment transactions**

Accounting policies used by the Group in reporting segments are contained in note 2 to the accounts.

### **Major customers**

The Group has a number of customers to which it provides products and services. The most significant customer accounts for 17% (2012: 47%) of external sales and royalties revenue within the skin care operating segment. The next most significant client accounts for 16% (2012: 16%) of external revenue also within the skin care operating segment.

### **Business Segments**

2013	Skin Care \$'000's	Pain Portfolio \$'000's	Total all Segments \$'000s	Unallocated \$'000's	Total Group \$'000's

## Notes to the consolidated financial statements continued

### i) Segment revenue reconciliation to the statement of comprehensive income

Reconciliation of revenue	2013 \$'000	2012 \$'000
Total segment revenue	1,590	1,530
Other revenue from continuing activities	568	1,133
<b>Total revenue</b>	<b>2,158</b>	<b>2,663</b>

Revenue from external customers by geographical locations is detailed below. Revenue is attributed to geographic location based on the location of the customers.

Revenue by geographical location	2013 \$'000	2012 \$'000
Australia	1,726	1,896
Germany	205	-
Switzerland	-	515
United States	227	207
Other	-	45
<b>Total revenue</b>	<b>2,158</b>	<b>2,663</b>

### ii) Segment net operating profit after tax reconciliation to the statement of comprehensive income

The executive management committee meets on a monthly basis to assess the performance of each segment by analysing the segment's net operating profit after tax. A segment's net operating profit after tax excludes non-operating income and expense such as dividends received, fair value gains and losses, gains and losses on disposal of assets and impairment charges.

Reconciliation of segment net operating profit after tax to net profit/loss before tax	2013 \$'000	2012 \$'000
Segment net operating profit/(loss) after tax	(5,455)	(1,753)
R&D Incentive credit	2,839	2,958
Salaries and employee benefits expense	(4,849)	(4,607)
Amortisation and depreciation	(3,741)	(3,730)
Other operating loss from continuing activities	(1,467)	(3,381)
<b>Total net profit before tax per the statement of comprehensive income</b>	<b>(12,673)</b>	<b>(10,513)</b>

### iii) Segment assets reconciliation to the statement of financial position

In assessing the segment performance on a monthly basis, the executive management committee analyses the segment as described above and its relation to the segment assets. Segment assets are those operating assets of the entity that the management committee views as directly attributing to the performance of the segment. These assets include plant and equipment, receivables and inventory.

## Notes to the consolidated financial statements *continued*

<b>Reconciliation of segment operating assets to total assets</b>	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>
Segment operating assets	1,856	2,017
<i>Other operating assets from continuing activities</i>		
Intangibles	27,877	31,519
Cash & cash equivalents	8,823	16,912
All other operating assets from continuing activities	4,402	4,644
<b>Total assets per the statement of financial position</b>	<b>42,958</b>	<b>55,092</b>

The analysis of the location of non-current assets is as follows:

<b>Non-current assets by geographical location</b>		
Australia	28,801	32,551
United States	2	2
<b>Total assets</b>	<b>28,803</b>	<b>32,553</b>

#### **iv) Segment liabilities reconciliation to the statement of financial position**

Segment liabilities include trade and other payables and debt. The Group has a centralised finance function that is responsible for raising debt and capital for the entire operations. Each entity or business uses this central function to invest excess cash or obtain funding for its operations.

<b>Reconciliation of segment operating liabilities to total liabilities</b>		
Segment operating liabilities	-	-
Deferred tax liabilities	-	-
Other operating liabilities from continuing activities	2,187	1,872
<b>Total liabilities per the statement of financial position</b>	<b>2,187</b>	<b>1,872</b>

## **18. RELATED PARTY DISCLOSURE**

The consolidated financial statements include the financial statements of Phosphagenics Limited and the subsidiaries listed in the following table.

<b>Entity</b>	<b>Country of Incorporation</b>	<b>2013</b>	<b>2012</b>	<b>2013</b>	<b>2012</b>
		<b>Equity Interest</b>	<b>Equity Interest</b>	<b>Investment \$'000</b>	<b>Investment \$'000</b>
Vital Health Sciences Pty Ltd	Australia	100%	100%	27,111	27,111
Preform Technologies Pty Ltd	Australia	100%	100%	-	-
Adoil Pty Ltd	Australia	100%	100%	-	-
Phosphagenics Inc.	USA	100%	100%	-	-
Equine Ergogenics Australia Pty Ltd	Australia	0%	50%	-	-

Phosphagenics sold its share in Equine Ergogenics Australia Pty Ltd for \$1 as at 31 December 2013 and entered into a royalty arrangement, including minimum royalties payable, from 1 January 2014.

## Notes to the consolidated financial statements continued

### Other transactions with key management personnel

The loss from operations includes no items of revenue and expense that resulted from transactions other than remuneration or equity holdings, with specified directors or their personally-related entities.

Don Clarke is a partner of law firm Minter Ellison. Minter Ellison provided professional services to the Group totalling \$9,182 (2012: \$31,542) during the year. These services were provided on normal commercial terms.

## Notes to the consolidated financial statements continued

### Transactions with other related parties

During the year, Vital Health Sciences Pty Ltd borrowed \$137,326 (2012: repaid \$149,604) and Phosphagenics Inc. repaid \$110,760 (2012: borrowed \$370,063) from Phosphagenics Ltd (the parent entity). The loan is non-trading in nature.

Phosphagenics Inc. has insufficient net assets to repay the inter-company loan balance to Phosphagenics Ltd (the parent entity). At 31 December 2012 Phosphagenics Ltd recognised a writeback in the impairment of \$110,760 (2012: provision \$426,730) against the inter-company loan with Phosphagenics Inc.

No amounts were provided for doubtful debts relating to debts due from related parties at reporting date (2012: Nil).

### 19. EVENTS AFTER BALANCE SHEET DATE

There has not been any matter or circumstance, other than those referred to in the financial statements or notes thereto, that has arisen since the end of the financial year, that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

### 20. PRIOR PERIOD ERRORS

As a result of the misappropriations the Company has identified two adjustments to its past financial reports which it has adjusted as prior period errors:

- R&D Incentive amounts received of \$578,000 and recorded as Other income for the periods up to 31 December 2012 have been overstated on a cumulative basis; and
- GST of approximately \$363,595 relating to periods up to 31 December 2012 has been incorrectly claimed on fraudulent invoices where there was no supply of goods or services and may be subject to recovery by the Australian Taxation Office.
- These amounts include an estimate of probable interest charges.

Line item affected by error:

<b>Consolidated Statement of Financial Position</b>	<b>1 January 2012 \$'000</b>	<b>31 December 2012 \$'000</b>
Trade and other receivables	Decrease 208	Decrease 578
Trade and other payables	Increase 231	Increase 363
Accumulated losses	Increase 439	Increase 941
<b>Consolidated Statement of Comprehensive Income</b>		<b>Year ended 31 December 2012 \$'000</b>
Income from government grants		Decrease 370
Costs under investigation		Increase 132
Loss after income tax		Increase 502
Total comprehensive loss for period		Increase 502
Basic profit/(loss) per share		(0.05) cents
Diluted profit/(loss) per share		(0.05) cents

Misappropriations of approximately \$1,105,000 (excluding GST) have been identified in research expenses in the prior year to 31 December 2012 and have been reallocated to Costs under investigation expense line in the comparative statement of comprehensive income.

Incorrectly claimed GST in relation to the year ended 31 December 2012 was also included in the Costs under investigation line in the Statement of Comprehensive Income. In the Half Year Financial Report for the period ended 30 June 2013 the Company first restated its comparatives for the effect of the errors described. Since that time the Company has further refined its calculation of the incorrectly claimed GST which has resulted in the amount of the restatement at 1 January 2012 and 31 December 2012 being revised.

### 21. CHANGES IN ACCOUNTING POLICY

As described in Note 2 the Company has made a voluntary change in accounting policy to amortise its intangible assets from their acquisition date (1 February 2005) and has reflected this policy change in the financial report on a retrospective basis as required by Accounting Standards.

Line item affected by the change in accounting policy:

<b>Consolidated Statement of Financial Position</b>	<b>1 January 2012 \$'000</b>	<b>31 December 2012 \$'000</b>
Intangibles	Decrease 9,495	Decrease 8,451
Accumulated losses	Increase 9,495	Increase 8,451
<b>Consolidated Statement of Comprehensive Income</b>		
Amortisation of intangible assets		Decrease 1,044
Loss after income tax		Decrease 1,044
Total comprehensive loss for period		Decrease 1,044
Basic profit/(loss) per share		0.10 cents
Diluted profit/(loss) per share		0.10 cents

### 22. NOTES TO THE CASH FLOW STATEMENT

#### (a) Reconciliation of cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts. Cash and cash equivalents at the end of the financial year, as shown in the statement of cash flows, is reconciled to the related items in the statement of financial position as follows:

	<b>2013 \$'000</b>	<b>2012 \$'000</b>
Cash at Bank	1,637	1,254
Short Term Deposits	7,186	15,658
	<b>8,823</b>	<b>16,912</b>

## (b) Reconciliation of net loss after tax to net cash flows from operations

Net Profit / (loss) after tax	(12,673)	(10,513)
<i>Adjustments for:</i>		
Depreciation, disposal and amortisation of non-current assets	3,883	3,909
Share based payment expense (ECSRS)	202	395
Other share based payments	-	-
Foreign currency translation reserve	(12)	-
Interest received	(589)	(1,248)
<i>Changes in assets and liabilities:</i>		
(Increase)/ decrease in trade receivables and other receivables	134	(2,247)
(Increase)/decrease in inventories	155	110
(Increase)/decrease in other current assets	6	(83)
(Decrease)/increase in trade payables and other payables	224	(2,121)
(Decrease)/increase in provisions	91	135
<b>Net cash (used in) operating activities</b>	<b>(8,578)</b>	<b>(11,663)</b>

## 23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise of cash and short-term deposits. Various financial instruments such as trade receivables and trade payables arise directly from operations. The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates.

The Group does not enter into, or trade, financial instruments including derivative financial instruments, for speculative purposes and manages its exposure to key financial risks, including interest rate and currency risk in accordance with the principals of prudent financial management. The objective of this is to support the delivery of the Group's financial targets whilst protecting future financial security.

Primary responsibility for identification and control of financial risks rests with the Audit Committee under the authority of the Board. The Board reviews and agrees policies for managing each of the risks including foreign exchange risk, interest rate risk and future cash flow forecast projections.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2 to the financial statements.

## Notes to the consolidated financial statements *continued*

### (a) Risk exposures and responses

#### *Interest rate risk*

The consolidated entity is only exposed to interest rate risk relating to cash at bank as it has no borrowings. At reporting date the Group has the following financial assets (no financial liabilities at 31 December 2013 or 31 December 2012) exposed to Australian Variable Interest Rates:

	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Financial Assets</b>		
Cash and cash equivalents	8,823	16,912

The following sensitivity analysis is based on the interest rate risk exposures in existence at 31 December 2012. If interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax loss and equity would have been affected as follows:

	<b>Post Tax Loss</b>		<b>Equity</b>	
	<b>Higher/(Lower)</b>		<b>Higher/(Lower)</b>	
	<b>2013</b>	<b>2012</b>	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>	<b>\$'000</b>
<b>Judgements of reasonably possible movements:</b>				
+ 1% (100 basis points)	88	169	-	-
-0.5% (50 basis points)	(44)	(85)	-	-

The movements in profit are due to higher/lower interest income from variable rate term deposits and cash balances. There is no equity movement as there are no financial assets or financial liabilities which are designated as cash flow hedges. The sensitivity is lower in 2013 in comparison to 2012 due to the lower cash and cash equivalents balance.

#### *Foreign Currency Risk*

The Group has transactional currency exposures principally due to its operations in the United States. Such exposure arises from sales or purchases by an operating unit in currencies, principally US dollars, other than the Groups presentation currency.

Approximately 45% of sales and royalties (2012: 44%) are denominated in currencies other than the presentation currency of the Group (Australian dollars), whilst approximately 76% (2012: 89%) of costs are denominated in the Groups presentation currency. At 31 December 2013 the Group had the following exposure to US dollar foreign currency not designated in cash flow hedges:

	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Financial Assets</b>		
Cash and cash equivalents	25	139
Trade and other receivables	205	277
	230	416
<b>Financial Liabilities</b>		
Trade and other payables	(420)	(396)
<b>Net Exposure</b>	<b>(190)</b>	<b>20</b>

## Notes to the consolidated financial statements *continued*

### (b) Risk exposures and responses

At 31 December 2013, had the Australian Dollar moved, as illustrated in the table below, with all other variables held constant, post tax profit and equity would have been affected as follows:

	Post Tax Loss		Equity	
	Higher/(Lower)		Higher/(Lower)	
	2013	2012	2013	2012
	\$'000	\$'000	\$'000	\$'000
<b>Judgements of reasonably possible movements:</b>				
<b>Consolidated</b>				
AUD/USD +10%	23	14	-	-
AUD/USD -5%	-11	-7	-	-

#### *Credit risk management*

Credit risk arises from the financial assets of the Group comprising cash and cash equivalents and trade and other receivables. Credit risk refers to the risk the counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults.

Group exposure to, and the credit ratings of, counterparties are continuously monitored and the aggregate value of transactions concluded are with approved counterparties. The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk on liquid funds and financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies. The Group measures credit risk on a fair value basis.

The carrying value of financial assets recorded in the financial statements, net of any allowances for losses, represents the Groups maximum exposure to credit risk. Maturity analysis of financial assets and liabilities based on management's expectations as follows:

Year Ended	≤ 6	6-12	1-5	>5	
31 December 2013	Months	Months	Years	Years	Total
	\$'000	\$'000	\$'000	\$'000	\$'000
<b>Liquid financial assets</b>					
Cash and cash equivalents	8,823	-	-	-	8,823
Trade and other receivables	3,057	1,364	-	-	4,421
	11,880	1,364	-	-	13,244
<b>Financial liabilities</b>					
Trade and other payables	(1,467)	-	-	-	(1,467)
	(1,467)	-	-	-	(1,467)
<b>Net inflow/(outflow)</b>	<b>10,413</b>	<b>1,364</b>	<b>-</b>	<b>-</b>	<b>11,777</b>

## Notes to the consolidated financial statements *continued*

### (c) Risk exposures and responses

#### *Liquidity risk management*

Liquidity risk arises from the financial liabilities of the group and the group's subsequent ability to meet their obligations to repay their financial liabilities as and when they fall due. The Group continuously monitors cash flows and matches the maturity profiles of financial assets and liabilities.

Year Ended	≤ 6	6-12	1-5	>5	Total
31 December 2013	Months	Months	Years	Years	Total
	\$'000	\$'000	\$'000	\$'000	\$'000

	11,880	1,364	-	-	13,244
<b>Financial liabilities</b>					
Trade and other payables	(1,467)	(221)	-	-	(1,688)
	(1,467)	(221)	-	-	(1,688)
<b>Net inflow/(outflow)</b>	<b>10,413</b>	<b>1,143</b>	<b>-</b>	<b>-</b>	<b>11,556</b>

Year Ended	≤ 6	6-12	1-5	>5	Total
31 December 2012	Months	Months	Years	Years	Total
	\$'000	\$'000	\$'000	\$'000	\$'000
<b>Liquid financial assets</b>					
Cash and cash equivalents	16,912	-	-	-	16,912
Trade and other receivables	3,875	-	680	-	4,555
	20,787	-	680	-	21,467
<b>Financial liabilities</b>					
Trade and other payables	(1,101)	-	(363)	-	(1,688)
	(1,101)	-	(363)	-	(1,688)
<b>Net inflow/(outflow)</b>	<b>19,686</b>	<b>-</b>	<b>317</b>	<b>-</b>	<b>20,003</b>

#### *Fair Value*

Due to the short term nature of the financial instruments, their carrying value is assumed to approximate their fair value.

#### *Capital Management*

Management's objective is to ensure the entity continues as a going concern with the ability to fund future research and development requirements and commercialise the Groups products. Management also aim to maintain a capital structure that ensures the lowest cost of capital available and deliver optimal long term returns to shareholders.

## Notes to the consolidated financial statements continued

### 24. INFORMATION RELATING TO PHOSPHAGENICS LIMITED ('the parent entity')

## Directors' Declaration

In accordance with a resolution of the Directors of Phosphagenics Limited, I state that:

1. In the opinion of the directors:
  - (a) The financial statements and notes of Phosphagenics Limited for the financial year ended 31 December 2013 are in accordance with the *Corporations Act 2001*, including:
    - (i) Giving a true and fair view of the consolidated entity's financial position as at 31 December 2013 and performance for the year ended on that date; and
    - (ii) Complying with Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*;
  - (b) The financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2(a); and
  - (c) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
2. This declaration has been made after receiving the declarations required to be made to the Directors by the Chief Executive Officer and Chief Financial Officer in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 31 December 2013.

On behalf of the Board

Jonathan Lancelot Addison  
Chairman

## Independent auditor's report to the members of Phosphagenics Limited

### Report on the financial report

We have audited the accompanying financial report of Phosphagenics Limited, which comprises the consolidated statement of financial position as at 31 December 2013, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

#### *Directors' responsibility for the financial report*

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2 (a), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

#### *Auditor's responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Independence*

In conducting our audit we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration.

*Opinion*

In our opinion:

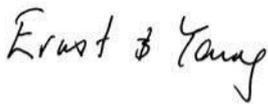

- a. the financial report of Phosphagenics Limited is in accordance with the *Corporations Act 2001*, including:
  - i giving a true and fair view of the consolidated entity's financial position as at 31 December 2013 and of its performance for the year ended on that date; and
  - ii complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2 (a).

## Report on the remuneration report

We have audited the Remuneration Report included in pages 7 to 14 of the directors' report for the year ended 31 December 2013. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

*Opinion*

In our opinion, the Remuneration Report of Phosphagenics Limited for the year ended 31 December 2013, complies with section 300A of the *Corporations Act 2001*.
